Benefits and drawbacks of T1 &T2 hypervisor, Cloud Computing discussed adequately. The flow process of DNS is good. Could have added own Illustrations for DNS in Appendix instead of referring to online sources. The quality of the report is good. The Critical Roles could have been more elaborately discussed. Could have added more description on comparing the functionalites and operations of terminologies with different OS's	14.8

Justification of practical tasks stated. Reflection on the task done. Screenshots are valid. However, the VM could have been recorded on a Scaled view. Very difficult to follow/ view. Make necessary changes in Coursework 2. However, marks are not affected for this. Analysis of the outcome done. The end of the report states about the word limit. Proper planning of the report could manage the world limit.	18
