Rockstar Games UK
London, United Kingdom

Dear Hiring Team,

I am writing to express my enthusiasm for the Entry-Level Game Tester position at Rockstar Games UK. As a current Business student at the University of Wales Trinity Saint David in Birmingham, I am passionate about the gaming industry and eager to begin a career where creativity and attention to detail are valued.

Gaming has always been a big part of my life. I enjoy exploring how games are designed, tested, and improved, and I've developed strong observation skills through years of playing and analysing different genres. My studies have strengthened my time management and problem-solving abilities, which I believe are important for identifying and reporting technical or design issues accurately.

Although I have not yet worked in a professional role, I am confident that my creativity, teamwork, and motivation to learn would allow me to contribute effectively to your quality assurance team. I would welcome the opportunity to learn from professionals at Rockstar Games UK and support your mission to create world-class experiences.

Thank you for considering my application. I look forward to the chance to discuss how I can contribute to your team.

Yours sincerely,

Emanuel Stoica

BA (Hons) Business Studies (Current Student)

Interests

I enjoy playing a variety of video games, exploring game mechanics, and following updates in the gaming industry. I am also interested in creative content such as digital media, storytelling, and game reviews.

Rockstar Games UK – Entry-Level Game Tester (Example Job Advertisement)

Rockstar Games UK is seeking an enthusiastic and detail-oriented Entry-Level Game Tester to join our QA team in London. This role is ideal for individuals passionate about video games who want to play an important part in ensuring the quality and functionality of our titles before release.

Responsibilities:

- Test gameplay, features, and content across multiple platforms.
- Identify, record, and report software bugs and inconsistencies.
- Collaborate with development teams to help resolve issues.
- Provide clear and concise written feedback.

Requirements:

- Strong attention to detail and problem-solving abilities.
- Passion for gaming and familiarity with Rockstar titles.
- Good written and verbal communication skills.
- Ability to work collaboratively within a team environment.

Rockstar Games is committed to providing a supportive and creative workplace that encourages learning and growth. If you're ready to start your career in game testing and want to be part of creating world-class gaming experiences, we'd love to hear from you.
