

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
1. Engagement with Literature Skills		
While you have included a good amount of literature which has been cited throughout the document. There is limited literature in Task 2.	20	10
2. Knowledge and Understanding Skills		
You have included a high number of areas for discussion however it is expected that you would go into more detail than just describing the topic from a high level. Add more depth to your discussions including practical and critical analysis.	10	5
3. Cognitive and Intellectual Skills		
While you have discussed a good amount of data security areas, it is expected that you also critically analyse each area.	25	10
4. Practical Application Skills		
Lack of practical application discussed throughout document. Given practical examples both in support and critical can significantly improve your discussion and give it more traction.	25	6
5. Transferable Skills for Life and Professional Practice		
Well presented and consistent document. Structure of heading, TOC, main body, Conclusion and Bibliography is very good. However the document is lacking any diagrams, tables and images to help support your discussions. Be mindful of blank pages in your document. Make sure you proof read your document before submitting.	20	12
