Aim and objectives

- To know how to Stay Informed, Stay Safe
- To Recognize and avoid common online scams.
- To Develop a vigilant online presence and
- To understand how to protect from digital threats.

1. Introduction to Avoid Online Scams

The Story of Selling Shoes

Phone Call:

- How did this person get my phone number?
- Why do they need the sneakers for the next day?
- It's strange that DeShawn talked to the buyer on the phone
- I think maybe the person was just trying to avoid annoying fees and so I don't see an issue with this
- I'd like to see confirmation that the buyer is real

Email/Receipt:

- Wouldn't DeShawn get his own invoice instead of the buyer sending him an invoice?
- With an invoice this seems legitimate and DeShawn should check his account to confirm he's received the money
- Makes me uncomfortable that the buyer has phone number and email
- I would stop communicating with the buyer

Should DeShawn Ship the Shoes?
