

Faculty of Education and Communities

The issues you raise via student reps, module feedback and student surveys are used to make decisions at every level of the University. We want to let you know what happens with your ideas and comments and update you on the work we're doing to improve your student experience.

It's Done

Library: You requested that the citations on the library be updated to the 7th edition APA. The subject Librarian has taken this back to the library to deal with. Update – This appears to have been done.

Digital era module – This matter has been resolved as the module is not running for 2023-2024.

Estates: We received a response from Estates regarding the Water Cooler outside of the CWAD – this is run off mains water – so should not run out. It takes a while to come through the tap – so you need to wait a while for the water to dispense.

Estates: Chair discussed the cleanliness of the toilets and the situation regarding the bins. Estates gave a quick response which was circulated to the student body via the course reps.

We're Working On It

Psychology labs – we have listened to points raised regarding the improvements to the Psychology. Lymarie has led a working group, comprising of Psychology staff members and course reps and a plan has been put into place.

We Can't Solve This Right Now
