GERARDO VIDAL GONÇALVES

38 Rosemead Avenue CR4 1EY

MITCHAM SURREY

LONDON; UK

Phone: 07784039107

Dear Mrs. /Mrs.,

I have worked the last 10 years as an designer, scientific illustrator and CAD Draughtsman, and am highly enthusiastic about any position for the same at your company. This is why I submit my resume and this letter of intent today, and ask for your consideration.

Though my resume will clearly outline my experience and skills, I wish to bring you a brief overview. I have worked as an designer , scientific illustrator and CAD Draughtsman in Portugal, Spain and Belgium (freelancer designer) for the past ten years. I worked as a designer of banners, posters, maps and preparation of graphics for web pages and blogs for various projects at the University of Évora, Portugal. I also worked with several archaeological and culture companies in the development of 3D models of artifacts and archaeological sites (3DS MAX) and graphic design for cultural exhibitions. In that time, I have focused my studies In several ways to capitalize and systematize the graphical information. I'm a creative. I am a motivated and dynamic person who always tries to collaborate on interesting projects. I am a punctual and dynamic person who enjoys working in a team or individually if needed.

I also have extensive experience working with digital maps and cartography (Quantum GIS and ArcGIS). I drew up several projects where meeting interesting graphics and web mapping concepts. I'm multifaceted and like to apply myself 200% in interesting projects.

I wish I could personally present your company in an interview and be able to demonstrate that, sincerely, my CV will be able to translate what I can really do for your business.

Please let me know when we can meet for an interview. I am very interested in discussing an position further, and ask that you reach me at (044) 07784039106 at your convenience.

Sincerely,

Gerardo Gonçalves
