

Individual commentary on Staffing List document

By Stephanie Stroker

Even though we are not actually hiring and paying anyone for this event, I did create a document with people who would be in charge of different aspects of the event organisation. We have me, Stephanie Stroker, in charge of finance topics such as budget, tickets and donations; Callum Watts on the production and programme schedules for the festival line-up and art exhibition; and Catarina Pereira in charge of the moodboards and branding for the whole event (we are the core festival organisers team).

We have two people from the Tileyard Education team helping us out, Lucy Macieira, who is in charge of the event promotion and marketing across all of their company's platforms (they have a bigger following, which means more attention and possible clicks on our event and donation site). The other TYE representative is Panos Agamemnos, who will kindly be creating footage for the event campaign interviewing some of our TYE artists that will be performing on the 11th of April. He will also be at the event on the day itself to take some pictures and videos of the event, for future promotion.

Then we have Emanuele Giovagnoli from EPA systems who will be helping us out with the technical side of things during the event, making sure our artists have the right equipment settings and doing their sound checks on the day of the event.

Lastly we have Lucie Dallas on the list, who is in charge of bar management and is our link to the event location, Two Tribes, she will be in charge of the alcohol and drinks, as well as the licenses that go along with the event organisation (in terms of alcohol and premises).
