Community Sports Development

The aims of todays lecture:

To understand the Wolfenden Report and its key findings

To look at our natural resources

To mash brain if needed

THE REPORT OF THE
WOLFENDEN COMMITTEE
ON SPORT

PUBLISHED BY
THE CENTRAL COUNCIL OF PHYSICAL RECREATION
6 BEDFORD SQUARE LONDON W.C.1
SEPTEMBER 1960

PRIFYSGOL CYMRU

Sir John Wolfenden

History

- From Swindon
- Attended Grammar School in Yorkshire
- Scholarship at Oxford University
- Headmaster
- Chaired committees focusing on education and problems with youth
- Vice Chancellor University Of Reading 1950
- CBE / then Knighted 1956
- Published report in 1960, group established 1957
- Still an influential piece of work in its field

Why?

Why was there A need for the Report

- ✓ Growing feeling that a new initiative was needed to grow and expand sport
- ✓ Impartial committee was needed to get true recommendations
- ✓ No people with sporting background / association to any sport to be involved
- ✓ Organised by the Central Council of Physical Recreation
- ✓ Recommendations to be published for all bodies delivering sport to view / act upon
- ✓ 1957-panel started

'Like every other instrument that man has invented, sport can be used either for good or for evil purposes. Used well, it can teach endurance and courage, a sense of fair play and a respect for rules, co-ordinated effort and the subordination of personal interests to those of the group. Used badly, it can encourage personal vanity and group vanity, greedy desire for victory and hatred for rivals, an intolerant esprit de corps *and contempt for people who are beyond a certain arbitrarily selected pale.'*

Aldous Huxley, from 'ENDS AND MEANS' *(Chatto & Windus)*

TMT
THE MONEY TEAM

The Present Position

- ✓ Not wholly discouraging
- ✓ School sport has led to more young people participating in sport than ever before
- ✓ General rise in most sports participation from Pre War – Post War
- ✓ There are many volunteers involved in organising sport
- ✓ Hard to know how many people are taking part in certain sports / activities like climbing mountains / cycling / canoeing
- ✓ Team sports still popular although more and more people are doing other activities such as skiing, climbing, riding, sailing
- ✓ Dancing attracts most people from both sexes

Governing Bodies of sport

20 Behind all this activity there is a considerable amount of organisation, without which the opportunities for all these participants would not exist. With very few exceptions, each of the games and sports has its national Governing Body, which by one form of administration or another manages the affairs of the sport. Naturally the Governing Bodies differ one from another in glory,

Governing Bodies of sport

What do you think were the differences between national governing bodies?

What challenges did this bring?

PRIFYSGOL CYMRU
Y Drindod Dewi Sant

Other organisations that develop physical recreation

Outdoor Activity Associations

Dancing and rhythmic movement

Youth Service

Three other important bodies- **Olympic Committee**-Concerned with Olympic Games. **The central council for physical education-** looking at post school physical recreation (training for coaches, volunteers). **National playing fields association**- stimulate the provision of playing fields and playgrounds

Play Works...

in Neath Port Talbot

Problems Identified

- Inadequate provision of post school sport and the link between school and sports / adult sports clubs needs to improve Gap-13-24 year olds
- Youth service and those that are delivering sports and activities should be working in the closest collaboration, whilst also keeping their own identity
- Children wont always want to continue playing the sports / games that they have done in school

Brain Mash

Brain Mash- 3 groups of 5/6

Fruit- everyone say a fruit, remember the order

Change position but say the same order of fruit

Ball in any order- keep that order add with Fruit

Tap foot clockwise

Pass pen anticlockwise

A Sports Development Council

269 We therefore recommend the establishment of a Sports Development Council. What we have in mind is not a body of specialist experts, or of representatives of the various sports and games, but a small body of six to ten persons of varied experience who have a general knowledge of the field and such personal standing as will give them accepted authority and influence. The Council would be either responsible to the Lord President of the Council or directly appointed by the Chancellor of the Exchequer.

A Sports Development Council

271 We picture the Sports Development Council as receiving each year a sum of money made available to it directly by the Treasury. This would be disbursed, either in the form of specific capital grants or as contributions to annual revenue, to two kinds

1- Composite bodies- **Olympic committee, The central council for physical education, National playing fields association.**

2- National Governing Bodies

£5, 000, 000 suggested amount given in one year

Another £5, 000, 000 suggested for capital expenditure (improving facilities, resources)

A Sports Development Council

Sports council developed – 1965

To be continued …….

Next Week- History of Sports development, Assignment details

Break

Task

A Three slide snap chat presentation

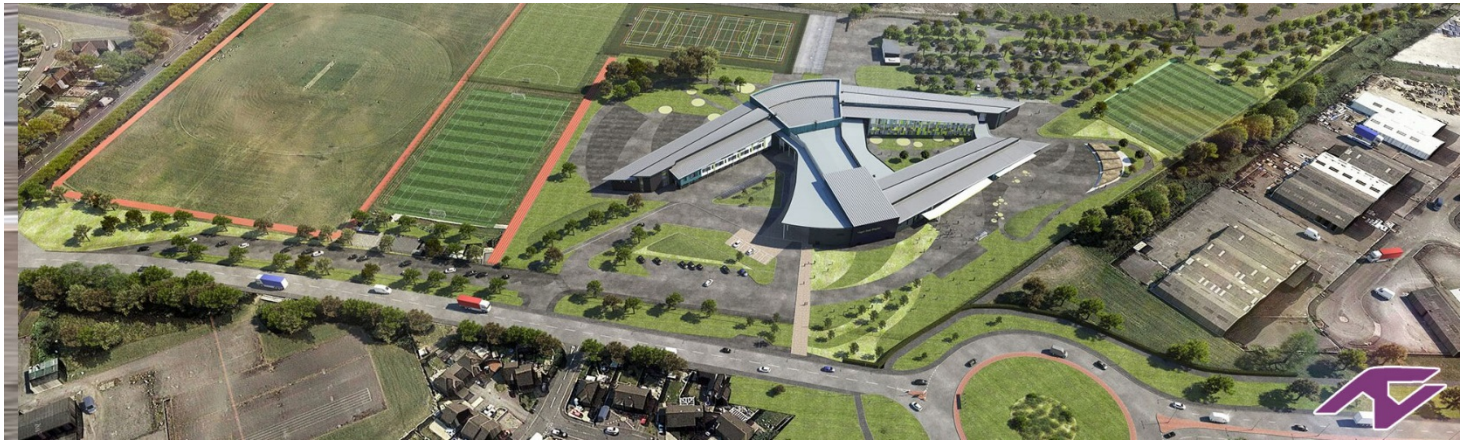

What natural resources in South Wales are / could be used for physical activity and sport?

20 minutes to prepare 5 minutes maximum to present as many ideas as possible

Facilities

- ✓ Plenty outdoors
- X Lack of indoor
- ✓ Natural resources

Wales

Has priceless assets- “long and beautiful coastline, mountains / hills- these are more used by the population of England. There is much needed development for local youths in Wales to make use of natural resources”

As in other areas, sport / activity on a Sunday is frowned upon although seaside resorts are open. The panel wanted to change this culture.
