

APPENDIX GA36a

LEVEL 4 ASSESSMENT SPECIFICATION

Programme:	CertHE Skills for the Workplace		
Module:	Effective Team Work and Communication		
Module code:	BMSW4002	Contribution to Overall Module Assessment (%):	50%
Module Leader:	Lloyd Beharry	Internal Verifier:	Sylvia Hoffmann
Assignment Title:	Assessment 2 Effective Team Work and Communication	Word count (or equivalent):	Group Presentation 5 minutes per person
Submission deadline:	To be announced by the Assessment team Please refer to the assessments schedule published on Students' Hall in Moodle	Return date of provisional marks & written feedback:	After the Exam Board
Submission method:	All written assessments, where practical and possible, must be submitted via Turnitin unless otherwise instructed by the Lecturer. (Please DO NOT put this assessment specification into Turnitin or it will match many similarities with other students' submissions.) Alternative submission method (if applicable): Late submission of the assessment will result in a late penalty mark. Penalties for late submission: Up to one week late, maximum mark of 40%. Over one week late, 0%. Only the Extenuating Circumstances Panel may approve a change to submission dates.		
Academic honesty / referencing:	Academic honesty is required. In the main body of your submission you must give credit to authors on whose research and ideas your work is based. Append to your submission a reference list that indicates the books, articles, etc. that you have used, cited or quoted in order to complete this assessment.		

Module Learning Outcomes (from module syllabus)

MODULE AIM

1. To introduce students to strategies for effective team working.
2. To develop students' awareness of the range of communication skills integral to success within the workplace

LEARNING OUTCOMES

Upon the successful completion of this module, the student will be able to:

1. Apply the main theories relating to group dynamics, team working and communication to their own workplace examples.
2. Prepare and deliver a short presentation within a team working context

PLEASE NOTE: Due to the current coronavirus (COVID-19) pandemic, the assessment brief for Feb 2021 term reflects the need for the entirety of the assessment to take place online.

TASK DESCRIPTION

Online Group Presentation

Imagine you work for a company that offers consultation services to organisations wishing to introduce team working into their operations.

Prepare a group presentation (with PowerPoint slides) to senior managers outlining the steps and considerations that need to be made in order to introduce effective team working.

Consider:

- Benefits of team working
- Stages of team development
- Team roles
- Managing conflict
- Successful team development

Further guidelines

The Presentation consists of 2 parts:

- 1) **PowerPoint slides converted into a WORD document**, which will be uploaded to Turnitin/Moodle before the presentation.
- 2) **A spoken presentation in which each member of the group will present on camera, using MS Teams**, in view of the markers for no more than 5 minutes.

Only the group leader is required to submit the group work on Turnitin/Moodle. However, it is expected that ALL group members contribute a fair share of work to the group presentation. This includes research, writing, editing, creating PowerPoint slides and preparing speaker notes. The speaker notes might be referred to while presenting but must not be read as this is a speaking and not a reading exercise.

All presentations will be held (usually in week 10) online using Microsoft Teams, so the students are required to make sure that they have all the necessary equipment and technical setup to deliver their presentation on the scheduled date. The presentation slides **should not exceed 5 per person** and should not simply be several separate parts stuck together, but should be coherent in content, format and presentation. Your work must include a front cover listing each member of the group. It is advisable to assign student names for the specific sections of the presentation. Students are also advised to put in-text citations and references as per the Harvard referencing style. The submission will be run through Turnitin to check for any Academic Misconduct.

Students will be assessed individually on their specific contribution to the group work presented.

GENERAL SUBMISSION GUIDANCE

1. All of your submissions must include a title page that clearly states your name, your student number, the module code and title, your lecturer's name, and your assignment title.
2. All of your submissions should be typed in Arial font, size 11.
3. All of your submissions should be typed with 1.5 line spacing.
4. All of your submissions should have an appropriate structure, include page numbers and have a reference list.

GUIDANCE FOR STUDENTS IN THE COMPLETION OF TASKS

NOTE: The guidance offered below is linked to the five generic assessment criteria overleaf.

1. Engagement with Literature Skills

Your work must be informed and supported by scholarly material that is *relevant* to and *focused* on the task(s) set. You should provide evidence that you have accessed an appropriate *range* of sources, which may be academic, governmental and industrial; these sources may include academic journal articles, textbooks, current news articles, organisational documents, and websites. You should consider the *credibility* of your sources; academic journals are normally highly credible sources while websites require careful consideration/selection and should be used sparingly. Any sources you use should be current and up-to-date, mostly published within the last five years or so, though seminal/important works in the field may be older. You must provide *evidence* of your research/own reading throughout your work, using a suitable referencing system, including in-text citations in the main body of your work and a reference list at the end of your work.

Guidance specific to this assessment:

2. Knowledge and Understanding Skills

At level 4, you should be able to demonstrate knowledge of the underlying concepts and principles associated with your area(s) of study. *Knowledge* relates to the facts, information and skills you have acquired through your learning. You demonstrate your *understanding* by interpreting the meaning of the facts and information (knowledge). This means that you need to select and include in your work the concepts, techniques, models, theories, etc. appropriate to the task(s) set. You should be able to explain the theories, concepts, etc. to show your understanding. Your mark/grade will also depend upon the *extent* to which you demonstrate your knowledge and understanding.

Guidance specific to this assessment:

3. Cognitive and Intellectual Skills

You should be able to present, evaluate and interpret qualitative and quantitative data, in order to develop lines of argument and make sound judgements in accordance with basic theories and concepts of your subject(s) of study. You should be able to evaluate the appropriateness of different approaches to solving problems related to your area(s) of study and/or work. Your work must contain evidence of logical, analytical thinking. For example, to examine and break information down into parts, make inferences, compile, compare and contrast information. This means not just describing what! But also justifying: Why? How? When? Who? Where? At what cost? You should provide justification for your arguments and judgements using evidence that you have reflected upon the ideas of others within the subject area and that you are able to make sound judgements and arguments using data and concepts. Where relevant, alternative solutions and recommendations may be proposed.

Guidance specific to this assessment:

4. Practical Skills

At level 4, you should be able to apply the basic underlying concepts and principles to evaluate and interpret these within the context of your area of study. You should be able to demonstrate how the subject-related concepts and ideas relate to real world situations and/or a particular context. How do they work in practice? You will deploy models, methods, techniques, and/or theories, in that context, to assess current situations, perhaps to formulate plans or solutions to solve problems, or to create artefacts. This is likely to involve, for instance, the use of real world artefacts, examples and cases, the application of a model within an organisation and/or benchmarking one theory or organisation against others based on stated criteria.

Guidance specific to this assessment:

5. Transferable Skills for Life and Professional Practice

Your work must provide evidence of the qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility. This includes demonstrating: that you can communicate the results of your study/work accurately and reliably, and with structured and coherent arguments; that you can initiate and complete tasks and procedures, whether individually and/or collaboratively; fluency of expression; clarity and effectiveness in presentation and organisation. Work should be coherent and well-structured in presentation and organisation.

Guidance specific to this assessment:

STUDENT FEEDBACK FORM

This section details the *extent* to which the assessment criteria are demonstrated by you, which in turn determines your mark. The marks available for each category of skill are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

GENERIC ASSESSMENT CRITERIA

Level 4

In accordance with the Framework for Higher Education Qualifications, at the end of Level 4 students will be expected to have demonstrated knowledge of the basic underlying concepts and principles of a subject, and an ability to evaluate and interpret these within the context of that area of study. They should be able to present, evaluate and interpret qualitative and quantitative data in order to develop lines of argument and make sound judgements in accordance with basic theories and concepts of their subject(s) of study. They will have learned how to evaluate different approaches to solving problems, and will be able to communicate the results of their study/work accurately and reliably, and with structured and coherent arguments. They will be able to undertake further training and develop new skills within a structured and managed environment and will have the qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Minimal or no use of evidence to back up views.	Largely descriptive work, with superficial evaluation of the underlying concepts and principles. Weak interpretation of data, flawed development of arguments and judgements. Information accepted uncritically, uses generalised statements made with scant evidence and unsubstantiated opinions. Ideas sometimes illogical and contradictory.	Limited attempt at evaluation of the underlying concepts and principles, tending towards description. Can interpret qualitative and quantitative data but with some errors. Some evidence to support emerging arguments and judgements but these may be underdeveloped or with a little inconsistency / mis-interpretation.	Good evaluation of the underlying concepts and principles. Can interpret qualitative and quantitative data, with minor errors. An emerging ability to use evidence to support the argument. Mostly valid arguments and logical judgements.	Sound evaluation of the underlying concepts and principles. Can interpret qualitative and quantitative data accurately. Ability to devise arguments using evidence to make mostly appropriate and valid judgements.	Excellent evaluation of the underlying concepts and principles.
