9 7JR
 - by phone: 01435 883492

THE BACKGROUND OF THE ORGANISATION

Oakdown House is a residential care home founded in 1986, providing care and support for adults with learning disabilities.

With over 30 years of experience and set over five acres of land, they support their residents to live independently, making their own choices.

CHALLENGES BEFORE INTRODUCING CURA SYSTEM

At the beginning, all records were kept in paper format, organised in folders and preserved on shelves.

THE MAIN PROBLEMS IN PAPER FORMAT ARE:

- Storage space
- Time management
- Easily misplaced
- Incomplete information or wrongly written

There are certain problems incurred by carers before Cura System, such as:

- Mistaken drug doses
- Malpractice
- Treatments easily disregarded

For improving the quality of caring in Oakdown House, the management decide to add Cura System to help the staff and residents.

Cura System is a care home management software that delivers real benefits to everyone connected to the home care.

HOW IS CURA SYSTEM DIFFERENT?

- Cura System uses images and videos to construct a digital care planning systems.
- Cura System offers access to the entire data base in real time.

ADVANTAGES OF CURA SYSTEM

- High security of the data
- Effective drug management
- Fast access for staff, residents and family
- The system corrects spelling errors
- Assurance during the CQC inspections
- Digital care plans
- Effortless electronic notes

Cura System is different and it offers unique operations:

- it can be accessed offline
- digital reminders for staff

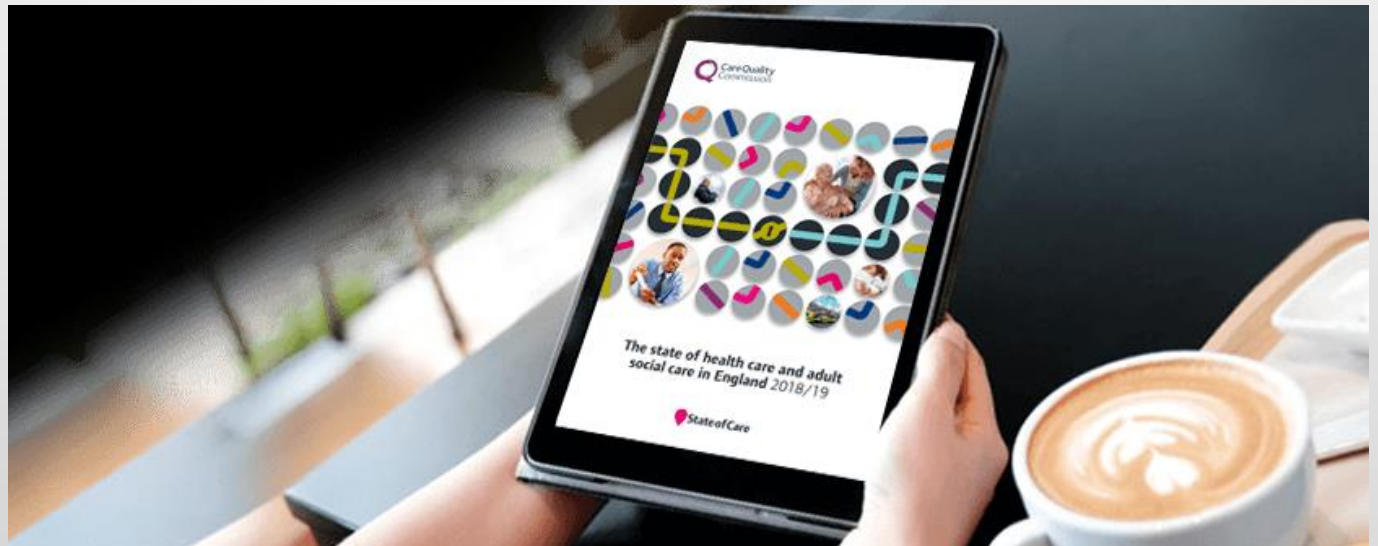

THE IMPACT OF IMPLEMENTING THE CURA SYSTEM IN OAKDOWN HOUSE

Positive impacts:

- Digital and technological training provided;
- Information safely stored online, preventing loss;
- Efficient use of time by reducing the space occupied;
- Improving the quality of care and cooperation between staff and residents;
- Environmental friendly and financial management for supplies and files.

NEGATIVE IMPACTS:

- You can access data online but you cannot input data;
- Not as safe as paper documents.

LESSONS DRAWN FROM THE CASE STUDY

- ✓ Quality of service
- ✓ Effective communication
- ✓ Improved work productivity
- ✓ Efficient communication between the staff, residents and family

CONCLUSION

Our presentation looked at Cura Care System.

We identified that it improves the efficiency of how care homes are organised and the communication between the staff, residents and third parties.

Overall, technology is key and it improves time management and quality of services.
