

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
General Comments		
Marks do speak volumes - there must be some ownership from yourself and the performance within this module (see CW1 marks as well). It is a simple case of not fully embracing the work set on this module and starting work seriously late - what were you expecting from L5 study ?	100	4
1. Engagement with Literature Skills		
N/A	0	0
2. Knowledge and Understanding Skills		
There is some JS within this development, but nothing is working effectively, this roughly translates to a non working mobile enabled application	15	2
3. Cognitive and Intellectual Skills		
There is some evidence within the report that starts the development process (welcome addition), but this is all about the development path that relates to the development of your API i.e., from initial ideas to proof of concept and ultimately effecting rendering of information on your mobile site. Also there is some requirement of providing suitably annotated code - you must understand the importance of annotated code. Upon further inspection of you API call to the weather API, the source of the API call i.e. the URL has a typo within it, thus will never work at all - simple debugging would have sorted this out	15	2
4. Practical Application Skills		
Although you have the "carcass" of a mobile enabled website, no API elements are working correctly - this does mean I cannot award any marks for this section	70	0
5. Transferable Skills for Life and Professional Practice		
N/A	0	0

Assignment Mark (Assessment marks are subject to ratification at the Exam Board. These comments and marks are to give feedback on module work and are for guidance only until they are confirmed.)	Late Submission Penalties (tick if appropriate)		4
