Hello,

I would like to take this opportunity to introduce myself and my services to you.

My desire to dress hair began as a form of self-expression which quickly escalated into a service for family and friends. I have been fortunate to have worked with a diverse range of hair types and conditions over the years and am confident that my services will be a great advantage to you and your business.

I am excited to see that you work extensively with the follicly challenged as I specialise in wig making and have created an extensions application system that is comfortable and durable for these speciality clients, which I am confident will be of benefit to your business.

I have excellent knowledge of past and current hairstyle trends and am highly creative at designing styles to fit an individual's personality. Many of my past clientele have often left the choice of style they wear to my discretion and are always happy with the results.

I perform barbering services and am proficient in cutthroat razor shaving.

Throughout my career as a hairdresser, I find that practicing head massages to stimulate follicle growth is a necessity and so I implement this procedure to all clients. As a bonus, I am a Level 1 Reiki practitioner which I find to be extremely helpful in this business as we provide comfort, care, and counselling to our clients.

My hobbies outside of hairdressing (which is my first love!) are, dancing, singing and people watching. I am an active member in my community and choose to spend time with autistic children and young single mothers that are victims of trauma.

I love working with hair and meeting/serving new people and would love the opportunity to work with you and your team.

Yours Sincerely

Sabela Simms
