| <p>Could have referred to more sources and materials in addressing threats, attacks and vulnerabilities.</p> <p>Key concepts (possible security breaches, threats, vulnerabilities, attacks, .meds) discussed. However the concepts could have been linked with the scenario more appropriately.; (.meds) could have been discussed with more details like its previous attacks etc instead of given basic description.</p> <p>Appropriate referencing done. However, more academic credible literatures could have been referred to the work.</p> | 11.4  |

| <p>The possible security breaches were very generic. Could have been more descriptive on what kind of security breaches it could lead to along with citations/ academic credible references. Threats, Vulnerabilities and Attacks were well discussed.</p> <p>The strength of the statements used is very good.</p> <p>Could have added more evidences to the statements used.</p> <p>The structure and quality of the report is Excellent. Could have added sub-headings within each task.</p> | 11.6 |

| Cognitive and Intellectual Skills                                                                                                                                                                                                                           | 20   |
