

Faculty of Education and Communities

The issues you raise via student reps, module feedback and student surveys are used to make decisions at every level of the University. We want to let you know what happens with your ideas and comments and update you on the work we're doing to improve your student experience.

✓ It's Done

- **Students requested clarification regarding parking on campus.**
 - The car park in front of the library is a designated student car park. Signs have been erected to clarify this and an email has been distributed to students by the estates team. The East burrows car park can continue to be used by students.
- **Students queried whether the car park would be made in to a “proper” car park (i.e., tarmacked) and with bays to ensure cars are not blocked in.**
 - This has been fed back to the operations/parking team.
- **Students are making use of the bookable student working rooms in the library.**
- **The transition to the SA1 campus has been successful, with students noting that they were quite satisfied and it had not hindered their studies in any way.**
- **There are working vending machines in the 'canteen' and library, which have been noted by students as very useful and appreciated.**
- **Students felt under pressure with having the 3-week Education module block running alongside the Prejudice and Discrimination lectures.**
 - This was noted by the PD and it was confirmed that that this would not be happening again during the academic year.
- **Students have been very happy with the level of engagement with staff and are finding it very helpful (more-so with dissertations).**
 - Staff aim to continue ensuring this level of support is upheld.

☀ We're Working On It

- **Nothing from the staff-student panel remains outstanding.**

✗ We Can't Solve This Right Now None
