3 SEPT TO Insert A HYPERLINK IIN A POWER POINT

STEP 1.

First step on your home screen or on main page how ever u want to call it,In the top right conner next to home you will see a tab saying insert press on it, follow to step 2.

STEP 2.

As in spet one you have sellected insert in step 2 you going to copy the link that you want to use, then head back to power point.

STEP 3.

And finally after selecting insert sellect links then a another pop up come along sellect link and as in step you have already copied your link now just insert, and that how you insert a hyperlink in a power point hop it was very use full thank you.
