Civil engineering

A complex process of ~~my~~ capturing my dream.

When I was young, I ~~am~~ ^{was} interested in architecture, due to the ^{diversity} ~~diversity~~ of ancient Chinese buildings and the ~~pre-per~~ prevailing of concrete buildings. ~~to~~
Why cannot they combined? ^{anything}

But when I graduated from senior high school, I have never learned about art or drawing, which is a ~~element~~ essential element for architecture. Attributing to that, I chose the civil engineering as my major.

And my dream changes to a symbol of China like the East ^{pearl} ~~pearl~~ Tower ~~in~~ ^{simultaneously}
building would be a

Electronics and Electrical Engineering

I am interested in computer and circuit. It is great to figure out things and make a function by building circuits. And the double E course is a very useful major. People in every aspect need it to support.
