

THE IMPACT OF THE TECHNOLOGY INTRODUCED

STUDENT:ROTARU GABRIEL ALEXANDRU

STUDENT ID:2113989

UNIVERSITY OF WALES TRINITY SAINT DAVID

MODULE CODE:BMSW4003

LECTURER:AMITAVE BANIK

DATE:18/12/2021

❖ Economic Impact:

- New technology introduced :
 - increase Tesla market value at one trillion dollars
 - attracted every year 500.000 customer from another big brands
 - attracted 10 big investors like The Vanguard Group and Norges Bank

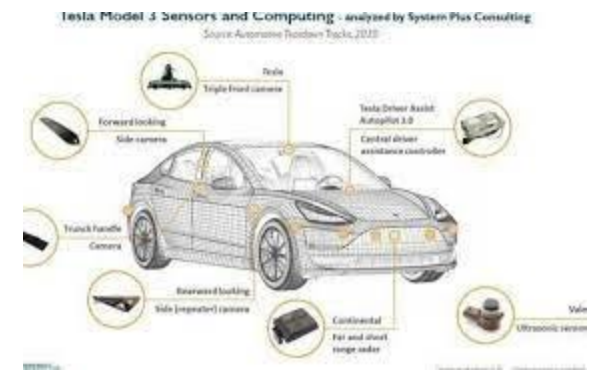

❖ Pollution Impact:

- New technology don't need to burn fossil resources to run
- New Tesla run on the electric power from battery and electric power generate from brake , Tesla Artificial Intelligence optimise this two source to increast mile range at 500 mile, 500 mile with zero emission
- Tesla start a new era , encouraged all brands to invest in electic cars and to leave Diesel and Petrol cars only in history

❖ Safety Impact:

- New Tesla AI use 8 camera to drive alone on the streets with white and yellow line and to be able to park without driver assistance and 4 radars to read what is around , this think it allows Tesla to brake when is an obstacle in front
- After introduction of safe AI by tesla all brands are forced by NCAP to instal safety AI system on the cars

❖ Conclusion:

- In my opinion Tesla AI change rules of roads.
- In the first row , Tesla AI make roads more safety , and city more clean , with cars like Tesla we can breathe a more clean air and to sleep without hear the noise of exhaust
- In the second row , Tesla AI encouraged all brands to follow them and to work in team for a better world .
