Boost your research and referencing skills

To improve your research and referencing skills we've designed several standalone modules designed to build your confidence in research, referencing, and academic skills.

📍 You'll find them on the library website under the [Academic and InfoSkills Programme](#).

The screenshot shows the 'Library & Learning Services' page for the University of Wales Trinity Saint David. The header includes the university's name in Welsh and English, and navigation links for 'Support for Staff' and 'Cymraeg'. A secondary navigation bar lists 'Using our Libraries', 'Academic & InfoSkills', 'Getting Started Guides', 'Strategies & Policies', 'Open Access & Research', and 'Need More?'. The main content area features a breadcrumb trail: 'Digital Services > Library & Learning Resources (LLR) > Academic and InfoSkills'. The title 'Academic and InfoSkills' is prominently displayed, followed by the sub-header 'Enhance your skills'. The text describes the Skills programme as designed to create opportunities for developing transferable academic and information skills, covering topics from finding library resources to managing online presence. It also mentions in-class sessions organized by lecturers and online units developed by Academic Liaison Librarians. Contact information for further support is provided at the bottom, including a link to 'book an appointment' and an email address: infoskills@uwtsd.ac.uk. A photograph of a student working at a desk with a laptop is on the right, and a chat icon is in the bottom right corner.

Your research strategy

DEFINE your topic or question.

IDENTIFY key authors, concepts, and keywords.

FIND suitable information sources.

SEARCH refine & repeat search.

RECORD by referencing correctly.

Phrase searching & terminology

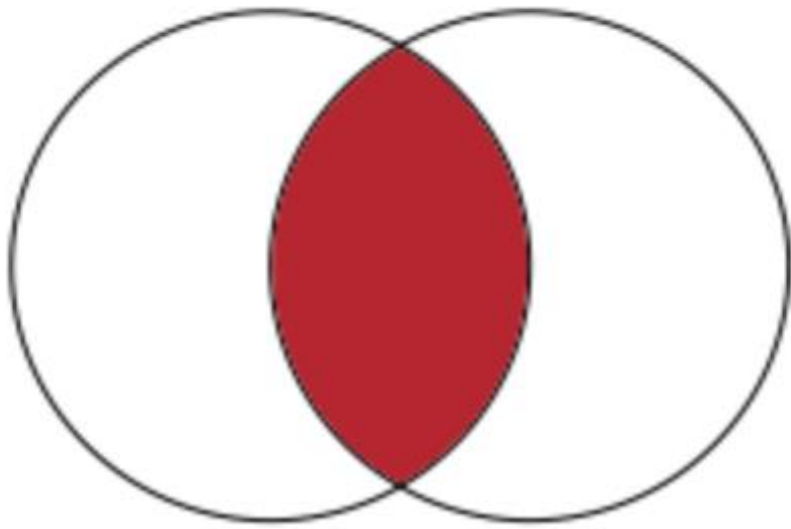

Consider different terminology that may be used.

- **Alternative words:** Synonyms / Antonyms.
- **Phrase searching:** Search for a phrase in quotations “climate change”.
- **Subject searching:** Controlled vocabulary.

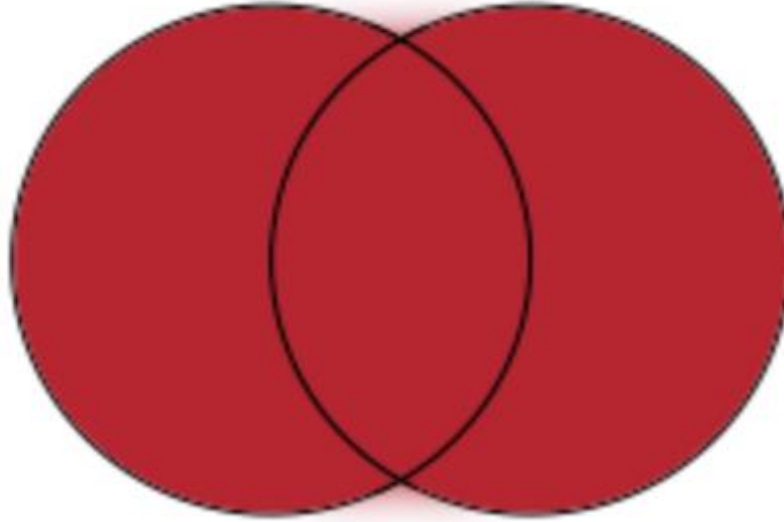

Truncation and Wildcards

- **Wildcards:** Locate alternative (American) spellings
e.g. Organi?ation will find organisation / organization
- **Note:** Check the individual database to confirm which symbol they use (#?*)
- **Truncation:** Coach* will find coach, coaches, coaching

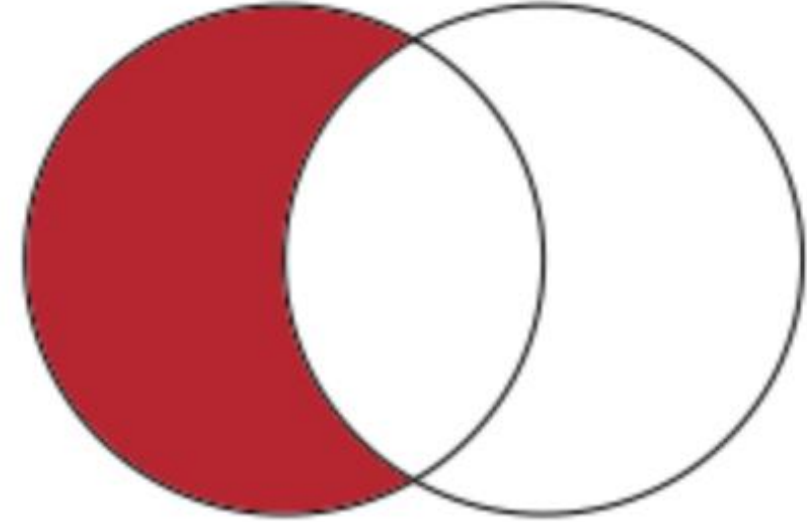

AND

OR

NOT

Boolean Operators allow you to **combine your keywords** to narrow or broaden your search.

- **AND**: narrows your search by only giving results where **ALL** your search terms are present.
- **OR**: broadens your search where **ANY** of your search terms are present.
- **NOT**: Excludes specific terms

Evaluating articles critically

When you're reading an article, ask yourself:

- **Is it peer-reviewed?**
This means experts have checked it for quality and accuracy.
- **Does it clearly state its research question or aim?**
A good article should explain what it's trying to find out.
- **How recent is it?**
Check the publication date and the dates in the reference list, are they up to date?
- **Does it include a strong list of references?**
More references often mean the author has done thorough research.
- **Has it been used by others?**
Some databases (like Springer, ScienceDirect, or Google Scholar) show how many times an article has been downloaded, shared, or cited—a good sign of its impact.

Use the CRAAP test to evaluate sources

Currency – Is it up to date.

Relevance – Who is the intended audience, will it further your argument.

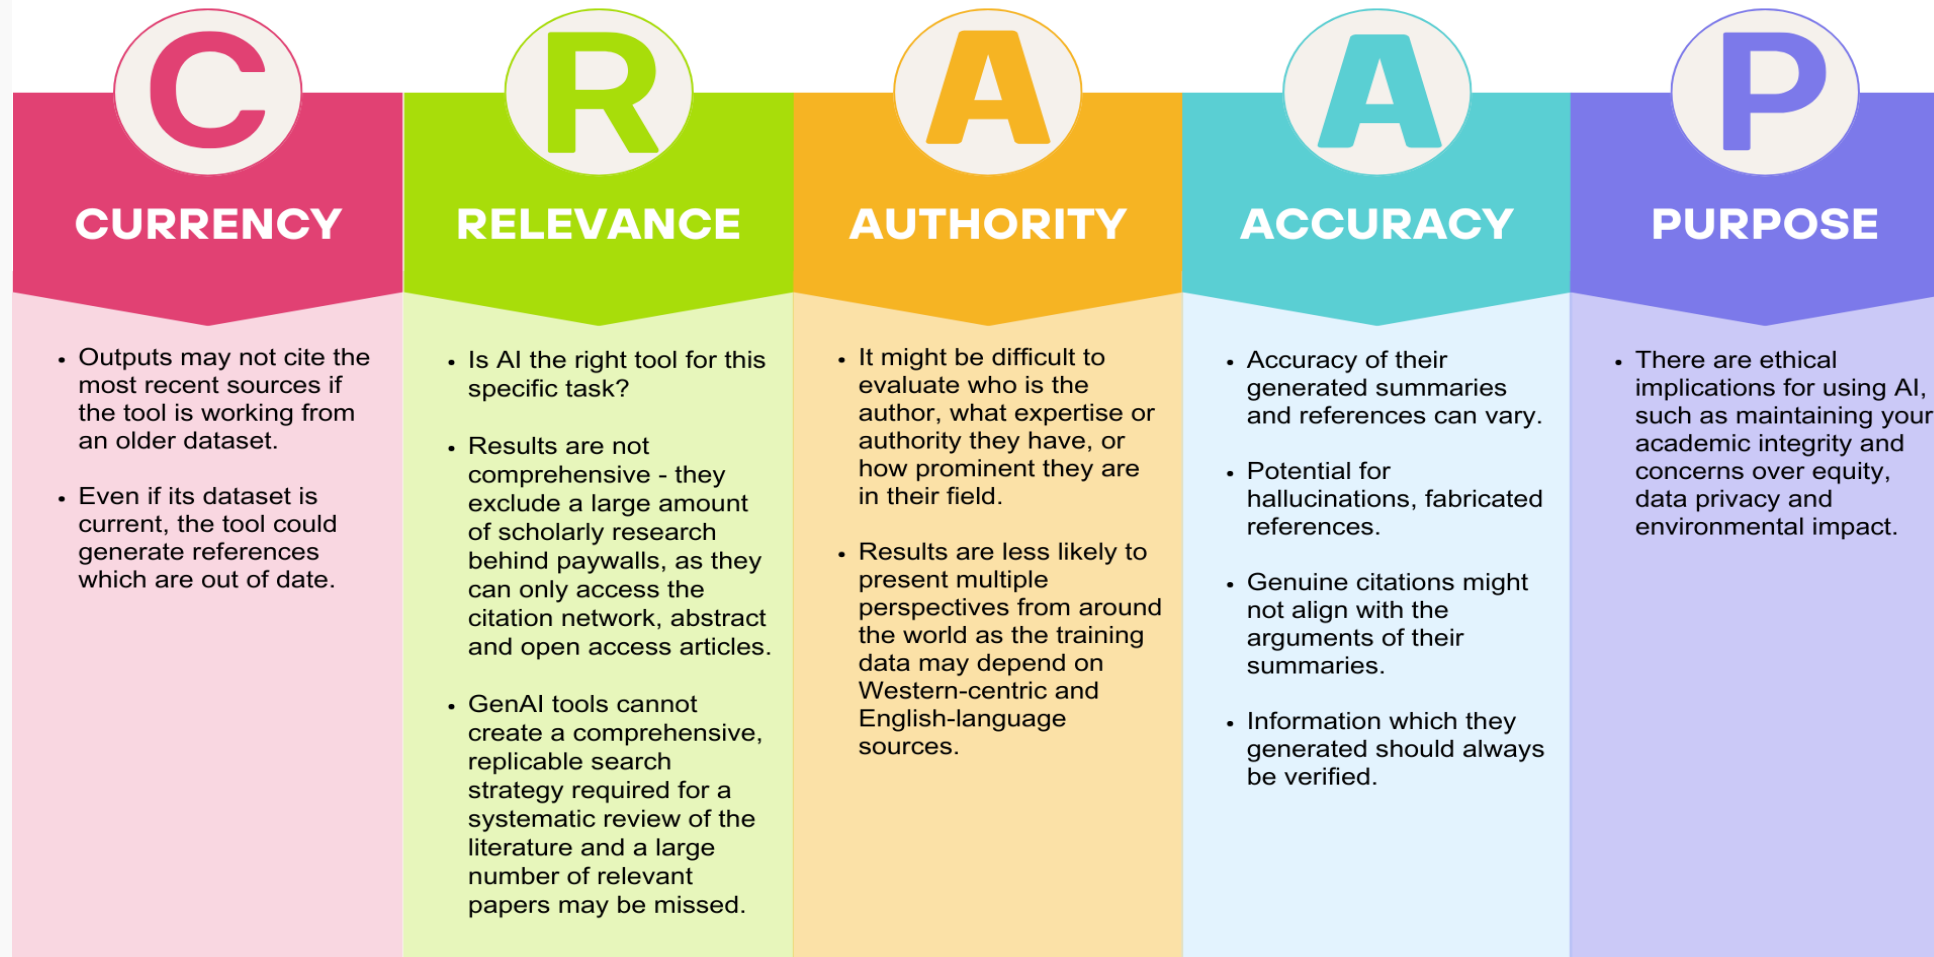

Authority – What are the authors credentials.

Accuracy – Can it be verified, is it supported by evidence.

Purpose – Why has it been produced, is it objective.

Adapted CRAAP test – for GenAI tools

New results

The screenshot displays a library search interface. At the top, there are tabs for 'SEARCH CRITERIA', 'BARCODE SEARCH', and 'SIMPLE SEARCH'. The 'SEARCH CRITERIA' tab is active. Below the tabs, the 'Search Scope' is set to 'Search eResources'. The 'Search Filters' section includes a dropdown for 'Any field' containing the text '(art political commentary) OR (social commentary)'. Below this, there are options for 'AND', 'Any field', 'contains', and 'Enter a search term'. To the right, there are filters for 'Material Type' (set to 'All items'), 'Language' (set to 'Any language'), 'Start Date' (with Day, Month, and Start Year dropdowns), and 'End Date' (with Day, Month, and End Year dropdowns). At the bottom of the search filters, there is a '+ ADD A NEW LINE' button and a 'CLEAR' button. Below the search filters, there is a summary of the search criteria: 'Any field contains (art political commentary) OR (social commentary in art) OR (art as activism) OR (po... AND Any field contains Enter a search term'. A 'SEARCH' button is located to the right of the summary. Below the search filters, there is a section for 'Active filters' which includes 'Full Text Online', 'Peer-reviewed Journals', and 'Years: 2010-2025'. There is also a 'Remember all filters' button. To the right of the active filters, there is a section for '0 selected', 'PAGE 1', '1-10 of 164,952 Results', a 'Save query' button, and a 'Personalize' button. Below this, there is a list of results. The first result is an article titled 'Bioart' by Yetisen, Ali K ; Davis, Joe ; Coskun, Ahmet F ; Church, George M ; Yun, Seok Hyun. The article is from 'Trends in biotechnology (Regular ed.)', 2015-12, Vol.33 (12), p.724-734. The article is described as 'Artistic responses to biotechnology also integrate cultural commentary resembling political'.

Good to know...

- It does not use its own training data, so minimises the risk of hallucinations.
- Unlike other chat boxes, such as ChatGPT, you cannot continue a conversation with it. Each query is independent.
- It does retain your search history, so you can return to it at a later date.
- It is a great starting point for research, especially if unsure where to begin.
- Can provide ideas for alternative keywords searches.
- Related research questions can help narrow down or expand research question.

Limitations

- Filters are still very limited within the assistant.
- Follow up questions are not supported. Each question stands alone, and all relevant information needs to be asked in each.
- Not everything is searched so you still need to perform searches in the catalogue to ensure a comprehensive literature search.
