

INTRODUCTION TO TEFL: CLASSROOM MANAGEMENT

Mark on the following classroom diagrams, by joining up the relevant circles, exactly how you would set up pairs of students (e.g. for a role-play)

(I.) Students in a bistro set up with 4 groups

(II.) Students in a traditional (grammar-translation)/exam set up with individual desks

(III.) What would you do if you had an odd number of students and still wanted to successfully set-up a pair-work activity involving the whole class ?
