PART A: PROJECT OVERVIEW

BRIEF OVERVIEW OF MODULE

- 40 credits
- Culmination of your degree
- A chance to work on a project that interests **you**
- After initial project proposal period you will arrange **one-to-one meetings** with your allocated supervisor (*20 minutes per week*)

WHAT SHOULD I DO FOR MY PROJECT?

Your project MUST have an implementation – this could be a software implementation or other practical output such as an asset pack or portfolio of work (2D, 3D etc.). **Your project cannot be research only.**

Your project must have some relevance to the title of your degree – e.g. if your degree title is BA Animation & VFX you must have some animation (or visual effects) in it.

THE ROLE OF YOUR SUPERVISOR

- Students work **independently** with a supervisor to oversee
- The supervisor's role is to **use their experience to guide you, make suggestions and make sure you meet deadlines.**
- **It is not the job of the supervisor to do your project**
- **It is not the job of the supervisor to give you weekly tasks**
