How to Play

Roll the Dice

Start your turn by rolling three dice. There are three module colours, green for easy (each with three mortarboards, two coffees and one fail), yellow for intermediate (two of each symbol) and red for hard (each with one mortarboard, two coffees and three fails).

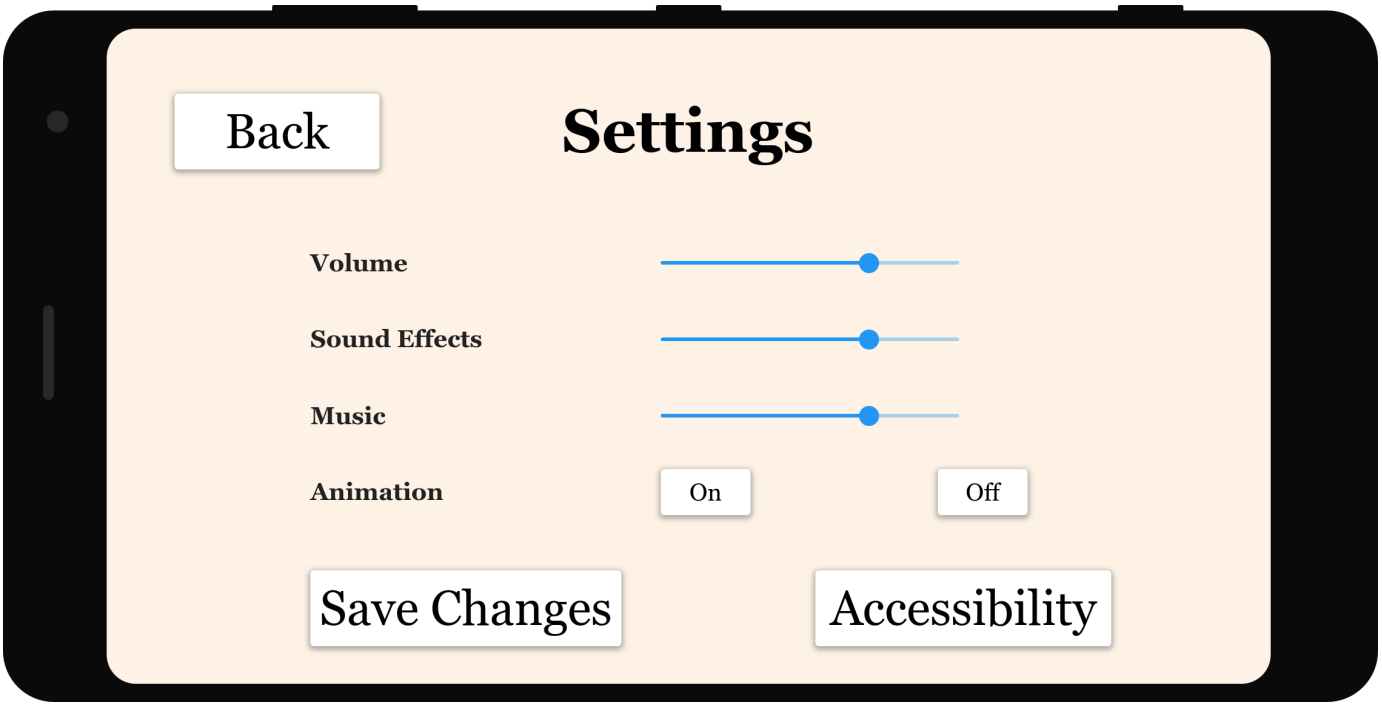

Icons

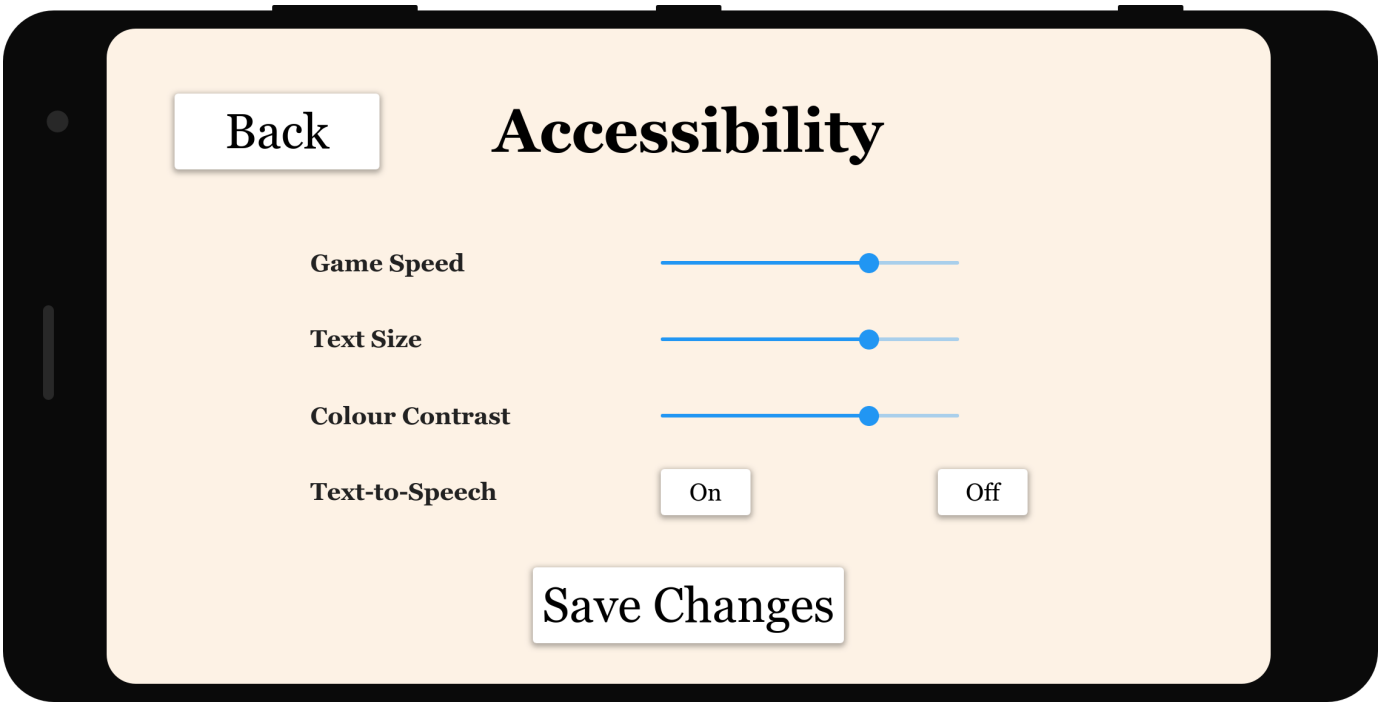

Mortarboards are required to earn your degree, but you must collect them **before** failing. Fail means failing a module, with three fails ending your turn and losing mortarboards. Coffee means a well earned rest, allowing that dice to be rolled again.

Winning

The game ends when someone collects 13 mortarboards and everyone has had the same number of turns. Whoever has the highest score after the last round of turns wins the game and graduates.
