

Fieldtrip task 17/02/2020: British Museum, London

Tomb Chapel of Nebamun – BM EA37981

Museum task:

Go around the Egyptian collection of the BM (Ground Floor – room 4 – as well as on the First Floor – rooms 61-66) and choose 3 objects which are representing gender in ancient Egypt. Think about why you feel they are representative. It is up to you to decide which culture, time period or object group they would come from. Make several photos of the objects, showing all important sides and characteristics. Try to find out as much as possible from the labels, catalogue, signs etc. Make a photo of or describe the case, thematic room or culture these objects are placed in within the museum. Also chose a comparative object from another culture

We will discuss the objects and what they represent in one of the sessions next week. I will add a link on MOODLE where you will be able to upload the objects.

If you cannot join us on the trip, please scour the catalogue on the museum website (https://research.britishmuseum.org/research/collection_online/search.aspx) for three objects representative for Egypt and one for a culture of your choice.
