“Current Proximity Current (II)” 2023

Mixed Media: Paper, Clay, Metal, Wood and Found items

This piece is the second instalment of my work in progress series current proximity current, The aim of this series is to capture the essence of landscapes within an indoor space. This specific piece is displayed under the stairs in the dark as I wished to show the essence of the beach, inside a cave. This setting helps to enhance the presence of abandoned items that I have found on the beach showing how we as humans leave our mark on nature.

Mae'r darn hwn yw ail randaliad fy ngwaith ar y gweill current proximity current, Nod y gyfres hon yw dal hanfod tirweddau o fewn gofod dan do. Mae'r darn penodol hwn yn cael ei arddangos o dan y grisiau yn y tywyllwch gan fy mod yn dymuno dangos hanfod y traeth, y tu mewn i ogof. Mae'r lleoliad hwn yn helpu i wella presenoldeb eitemau gadawedig yr wyf wedi dod o hyd iddynt ar y traeth gan ddangos sut yr ydym ni fel bodau dynol yn gadael ein hôl ar natur.
