Dear Licensee:

As this is the final issue of the Alabama Wine & Liquor Quarterly for the year 2010, it's a great time for reflection. This has been a turbulent and trying year for the State of Alabama and our country. The Gulf oil spill has ravaged our coastline and the recession has left many Alabamians unemployed. The leak was stopped by capping the gushing wellhead and, technically, the recession is over but hard times are far from over for those still out of work, and for the people who have found jobs at much lower wages. Please continue to do all you can to help our fellow Alabamians during their time of unquestionable stress.

This is also the time of year to remember the importance of our friends and loved ones, our neighbors and co-workers. As friends and family gather to celebrate the holidays or to mark special occasions, please remember that a license to sell alcohol is a privilege, not a right. It is also your right and your responsibility to refuse illegal sales to minors and to intoxicated customers. I invite you to contact our Responsible Vendor Program who will be more than happy to answer any of your questions about responsible selling/serving or to give you advice. We encourage everyone to make responsible decisions to ensure safe and happy celebrations.

The Board, our employees and I wish you a healthy, prosperous and peaceful holiday season and New Year to all of you and your families.

Sincerely,

Emory Folmar, Administrator

Some Scotch BASICS

BLENDING WHISKY'S
POPULARITY IS
BASED ON THE
MORE ACCESSIBLE
FLAVOR PROFILE
AND LOWER COST.

Note: This excerpt is printed with permission from the January/February 2010 issue of StateWays—the Beverage Alcohol Merchandising Magazine for Control States.

Most Scotch whisky around the world is consumed in blended whisky, a combination of as many as 50 single malts and grain whiskies brought to create a particular style. Ingredients can change depending on supply and demand, but in most cases, the malts that make up the core of the blends—Aberfeldy in Dewar's, Talisker in Johnnie Walker Black—remain the same.

It wasn't until the 1850s that Scotch distillers first blended malt whiskies together with grain whiskies, discovering a market for the lighter combination among English consumers. Blended Scotch whisky is considered more accessible and mass-market today, still is produced in enormous volume, and represents brands that are known worldwide. Blended whisky's popularity is based on the more accessible flavor profile and lower cost.

The single malts that make up the flavor heart of blended Scotch come from five defined regions in Scotland.

The Highlands, the largest Scotch-producing region in Scotland, produces some of the biggest names in single malt including

Glenfiddich, The Glenlivet, and The Macallan.

Islay, an island off Scotland's west coast, produces the most assertive, briny, smoky, pungent Scotch whiskies including Ardbeg.

Lowland whiskies come from an area in the southern part of Scotland and tend to be light and mellow.

Campbeltown, a remote town on the western fringe of Scotland, produces robust, tangy whiskies.

The islands—Arran, Jura, Mull, Orkney, and Skye—produce Highlands Scotches.

ENJOY SCOTCH NEAT, ON THE ROCKS, AND MIXED

You can enjoy the rich, full-bodied taste of scotch neat (straight up with no ice), on the

rocks (poured over clean, fresh ice), and in mixed drinks including the following recipes.

Scotch Royale

Serve in a chilled champagne flute.

1 sugar cube

1-1½ ounces scotch

Dash bitters

Champagne or sparkling wine, chilled

Place the sugar cube in a chilled champagne flute. Add the scotch and bitters, and then fill the glass with chilled champagne or sparkling wine.

Scotch Cooler

Serve in a chilled collins glass.

2-3 ounces scotch

3-4 dashes white crème de menthe

Club soda, chilled

Place clean, fresh ice into the chilled serving glass, and add the scotch and crème de menthe. Fill the glass with chilled club soda; swirl gently to mix.

Scotch Old-Fashioned

Serve in an old-fashioned glass.

1 sugar cube

1-1½ teaspoons water

Dash of bitters

2-2½ ounces scotch

Orange slice

Lemon slice

Maraschino cherry

Place the sugar cube in the bottom of an old-fashioned glass; add the water and bitters, and muddle (crush) to mix well. Add the scotch, and stir; add fresh ice, and stir gently. Garnish with the orange and lemon slices and the cherry.

People everywhere will be welcoming the new year by raising glasses and toasting their family and friends with best wishes for good health, prosperity, and happiness. And chances are those glasses will be filled with champagne or another sparkling wine.

According to French law, only sparkling wine made from grapes grown in the Champagne region and produced by the time-consuming, expensive bottle-fermented method can be labeled champagne. In America, though, any sparkling wine that is bottle fermented and

labeled with its geographical origin can be called champagne. Champagnes range in sweetness depending on how much—if any—sugar is added during processing, with brut champagne being the least sweet or “driest.”

**Felice Anno Nuovo! Bonne Annee!
Prosit Neujahr! Chu Shen Tan! Feliz
Año Nuevo! Happy New Year!**

Store bottles of champagne and sparkling wine horizontally in a cool, dark place. Before opening a bottle of champagne or sparkling wine, chill it thoroughly either in

the refrigerator (never in the freezer!) or a bucket filled with ice and water. Carefully remove the foil covering and the wire over the cork. Then point the bottle away from you, other people, and objects, and hold the cork securely while turning the bottle—not the cork.

Serve champagne and other sparkling wines in tall flutes to help “hold in” the bubbles. You can also enjoy

champagne and sparkling wines in mixed drinks and punches.

Best wishes for a very happy new year!

The wide and varied cordials and liqueurs category continues to push the boundaries with new flavors, new products and line extensions, and new usages in numerous cocktails.

Luscious Elixirs

BY ROBERT PLOTKIN

Note: This excerpt is printed with permission from the March/April 2010 issue of StateWays—the Beverage Alcohol Merchandising Magazine for Control States.

With so much attention being lavished these days on the surging popularity of cocktails and premium spirits, it's easy to understand why liqueurs and cordials are frequently relegated as passé and out of step with contemporary tastes. They're not glitzy and rarely—if ever—get coverage in the media. After all, who sips crème de menthe frappés anymore?

And while we must temper any of our observations with the understanding of the recent and ongoing difficulties in the economy, the fact is that any bartender worth his or her salt will attest that the cocktail's phenomenal renaissance is due in large part to the overlooked contributions of liqueurs and cordials. Their brilliant flavors and lush, satiny bodies temper the enthusiasm of high-

octane spirits and provide the heart of most notable cocktails. Without a varied complement of liqueurs on the back bar, drink-making abilities behind America's bars drop into low gear.

The adage that what people buy on Saturday is what they drink Friday night suggests a clear path how to increase retail liqueur sales. Consumers have taken to cocktails in a big way. Re-creating their favorite concoctions at home for friends requires them venturing into your store for the ingredients—a few of which will assuredly be liqueurs.

CREATE YOUR OWN NEW FAVORITES

Take advantage of the luscious taste of liqueurs to create your own new favorite beverages and desserts. Add chocolate, mint, nut, or vanilla-flavored liqueurs to make coffee extra smooth and creamy. For a simple yet elegant dessert, pour one or more liqueurs over shaved ice or ice cream.

Also be sure to update your mixed drinks with some of liqueur's new light, aromatic flavors—from cranberry, blueberry, and passion fruit to gingerbread, pumpkin spice, and parfait amor. Here are some basic cocktail recipes to get you started.

THE VARYING STYLES OF GIN ARE APPEALING TO A WIDENING RANGE OF CONSUMERS.

BY PAMELA DEVI GOVINDA

Note: This excerpt is printed with permission from the July/August 2009 issue of StateWays—the Beverage Alcohol Merchandising Magazine for Control States.

Gin was king of white spirits for many decades, from the pre – Prohibition era and beyond, but by the late 20th century, the juniper spirit began declining in appeal in favor of vodka. Now, however, it appears that the current classic cocktail culture is encompassing gin once again. Indeed, anecdotal evidence suggests that today's gin renaissance is driven by bartenders who in turn are influencing consumers, creating a trickle – down effect to retail stores. Total sales for gin spiked 1.5 percent nationally in 2008, according to the Beverage Information Group. In the control states, gin consumption was flat in 2008. Still, industry prognosticators are predicting further growth, causing retailers and tastemakers to declare that gin is in.

Gin might be best – known as a British drink, but its origins lie in Holland. Indeed, gin's predecessor, genever, is also making a bit of a comeback thanks to Bols, imported by William Grant and Sons. [In 2009] the company relaunched Bols Genever, causing buzz for the maltwine – based juniper spirit. “Genever is a separate protected category (AOC), like a cognac or a Bordeaux; it can only be named as such if it is produced in Holland, and it must include maltwine,” states Tal Nadari, vice president of marketing for Lucas Bols USA.

[In addition] the birth of the American micro-distillery has launched a handful of regional gins. Dominic Venegas, a spirits buyer and manager of a shop in San

Francisco, notes, “At John Walker and Co. we carry the major brands, but the majority of our gins are from small distilleries, many of them American. We're seeing micro – distilleries pop up all over the place.”

Educating the trade and consumers has always been top priority for Plymouth Gin, a protected geographical indication gin. Plymouth Gin took a grassroots attitude by employing hip brand ambassadors to reach out to bartenders and retailers, and now Plymouth is an industry favorite. “It was quite a unique strategy for the time,” says Simon Ford, the director of trade outreach and brand education for Pernod Ricard USA. “Now everyone's doing it.”

Bombay Sapphire uses a signature cocktail as its selling tool. As Giles Woodyer, vice president for Bacardi USA and brand managing director for Bombay Sapphire, explains, “We've been educating consumers and retailers through the Sapphire Collins, which is a twist on the Tom Collins. The key is to use fresh ingredients. Every bar in America and most homes have lemons and sugar, so it's an accessible drink, and it is a particularly refreshing cocktail.” A nifty citrus squeezer is provided to retailers for in – store tastings, and it is sold as part of a premium pack in select markets. “We think of the citrus squeezer being to gin what the muddler is to rum,” says Woodyer.

Astor Center (Astor Wines and Spirits educational facility) held a gin event [in 2008]. . . The tasting successfully divulged the wide breadth of different styles and categories when it comes to gin, something that gin producers and retailers are relying on to help spur sales in the category.

CLASSIC COCKTAILS BOOST GIN SALES

Tom Collins

1½ – 2 ounces freshly squeezed lemon juice

1½ – 2 ounces freshly squeezed lime juice (optional)

2 – 3 ounces chilled gin

1 teaspoon confectioners' sugar or ½ ounce sugar syrup

Club soda

Lemon slice

Lime slice (optional)

Orange slice

Maraschino cherry

Combine the lemon juice, lime juice (if desired), gin, and either confectioners' sugar or sugar syrup in a shaker half-filled with fresh ice. Shake vigorously, and strain into a chilled collins or highball glass over fresh ice, if desired. Fill the glass with club soda. Garnish with the lemon, lime (if desired), and orange slices and maraschino cherry.

Gin Sour

3 ounces chilled gin

1 ounce freshly squeezed lemon juice

1 teaspoon sugar syrup

Lemon slice

Orange slice

Maraschino cherry

Combine the gin, lemon juice, and sugar syrup in a shaker half-filled with ice; shake vigorously and strain into a chilled sour glass. Garnish with the lemon and orange slices and maraschino cherry.

Gin Martini

1½ – 2 ounces chilled gin

Generous dash dry vermouth

Generous dash sweet vermouth

Olive or cocktail onion

Pour the gin into a mixing glass or shaker half-filled with ice; add dashes of dry and sweet vermouth (vary the amounts depending on whether you are mixing a dry or wet/sweet martini). Stir or shake gently to mix, and immediately strain the mixed drink into a chilled cocktail glass over fresh ice, if desired. Garnish with an olive or onion on a pick.

Gin and Tonic

2 ounces chilled gin

Tonic water

Lime wedge

Fill a chilled highball (collins) glass with ice; pour in the gin, and fill the glass with tonic water. Squeeze the lime wedge over the drink before dropping it into the glass.

Gin and Soda

2 ounces chilled gin

Club soda

Lemon wedge

Fill a highball (collins) glass with ice; pour in the gin, and fill the glass with club soda. Garnish with the lemon wedge.

Shake it. Or stir.

SAKÉ

THE SPIRIT OF RICE

Altogether now, “Kanpai!”

(To your health and prosperity!)

THE RANGE OF SAKES AVAILABLE IN THE UNITED STATES IS GROWING, AND UNDERSTANDING THE GRADATIONS AND VOCABULARY ATTACHED TO THE PRODUCTS CAN BE HELPFUL TO YOUR CUSTOMERS.

BY HARRIET LEMBECK

Note: This excerpt is printed with permission from the January/February 2010 issue of StateWays—the Beverage Alcohol Merchandising Magazine for Control States.

Why should you know about saké? Because in our contemporary marketplace your potential customers are interested in a wide range of products. And regarding saké, there is an increasing interest in all of its styles. To say that saké is a beverage

made from rice is as superficial as saying that wine is a beverage made from grapes. Saké can be very complex, and you need to be familiar with the different types.

Many producers refer to saké as a “rice wine,” but since it is brewed from rice, which is a grain, it is technically a beer. Much of the process is the same as with beer. . . . Where it differs from a beer, however, is that saké is

colorless and clear, it has no carbon dioxide and no head, and it has a higher percentage of alcohol (12 percent to 20 percent). It certainly looks like a wine.

Premium sakés include Junmai, made solely from soft water, rice, mold (the enzyme), and yeast. Honjozo, which may have 10 percent of the weight of the rice of alcoholic distillate added, to increase the alcohol content. Within those two premium qualities, Daiginjo has a least 50 percent of the grain polished away, and Ginjo has 40 percent of the rice grain polished way. . . . Another word to learn is Tokubetsu, which is a subcategory and denotes “special.” . . . Three other words in this Japanese “vocabulary primer” are Taruzake, or “barrel” in which saké spends a brief time, resulting in a cedar flavor; Koshu, or “aged” (can be up to five years or more), which can have a more pronounced and pungent flavor; and Nigori, or “cloudy,” which contains rice solids in sus-

pension.

Saké’s shelf life is at least six months and can go to a year if stored in cool conditions. Your customers will appreciate learning that open bottles can keep six months longer in the refrigerator. Speaking of the refrigerator, most people are now drinking saké chilled, which may account for its newfound popularity. Michael Simkin suggests 60 degrees for premium varieties; fruity flavors (green apple or quince) are retained this way. Screw caps also contribute to saké’s popularity.

Be aware that Japanese saké bottle sizes do not match those of U.S. wine bottles, and they are usually a few milliliters smaller. Further, do not disdain saké that comes in a can—it is handy and protected from light.

Altogether now, “Kanpai!”—“To your health and prosperity!”

SAKÉ TIPS

Store saké in a cool, dark place or your refrigerator.

You can serve saké warm, as it has been traditionally served, but most of today’s premium sakés taste better slightly chilled. Experiment to discover your personal temperature preference.

Follow the Japanese custom of pouring saké from a tokkuri (a flask or vessel) into an ochoko or guinomi (a small cup without handles). For more about the traditional rituals of pouring and enjoying saké, please visit esake.com, www.wikihow.com/Serve-and-Drink-Sake, and other saké-related Web sites.

World randies

BY MICHAEL SHERER

Note: This excerpt is printed with permission from the November/December 2009 issue of StateWays—the Beverage Alcohol Merchandising Magazine for Control States.

There are essentially three types of brandy.

Brandy made with fermented juice of crushed grapes is the most common. Distilled once or twice, the resulting spirit is mellowed and aged in wood casks, usually oak.

Brandy made with pressed grapes, skins, and stems after the grapes are crushed is called pomace. Usually bottled without being aged or even seeing the inside of a wood cask, these brandies are edgier and more raw than their refined siblings. Best examples of the style are Italian grappas and French marcs. Lately, a South American brandy from Chile similar in style to pomace called “pisco” has become more popular here.

Spain produces a unique style of brandy using the “solera” system used to make sher-

ries . . . a series of butts is racked together.

Brandy is drawn off from the oldest butt in the series, but never more than a third.

That’s replaced with brandy from the next butt in the series, and so on, with the most recently distilled brandy going into the first, or youngest, butt in the series. Solera systems hasten maturation by combining vintages, with many as large as 30 stages. Cardenal Mendoza is a good example of the style.

Many countries have a thriving brandy industry producing internationally known brands—Presidente from Mexico and Metaxa from Greece, not to mention the lighter “California-style” brandies such as E&J, Paul Masson, Korbel, and Christian Bros. from the United States.

Finally, fruit brandies (not fruit-flavored brandies) are distilled from a variety of other fruits. Well-known examples include calvados (apple brandy from Normandy) and Williamine (pear brandy from Switzerland).

ENJOYING BRANDY

To fully enjoy the unique richness of brandy, pour it into a snifter, hold the glass between two fingers in your upturned palm, and swirl it gently to allow the warmth of your hand to gradually warm the beverage and release the bouquet.

Brandy also lends its rich bouquet and taste to a wide variety of mixed drinks, which increases this classic beverage’s versatility.

Brandy Cocktail

Serve in a chilled cocktail glass.

1-1½ ounces brandy, fruit brandy, or flavored brandy

1-1½ ounces triple sec or other orange-flavored liqueur

1 lime

Pour the brandy and triple sec into a shaker half-filled with fresh ice. Cut the lime into wedges; reserve one wedge for garnish, and squeeze the juice from the remaining wedges into the shaker. Shake vigorously, and strain the mixed drink into the serving glass; garnish with the reserved lime wedge.

Cheese, Fruit, and Port Simple, Elegant, and Delicious!

Help your customers discover—or rediscover—the delicious taste of port by pairing it with cheese and fruit. Once considered a gentleman's libation to be sipped from a snifter while smoking a cigar, port is gaining popularity as an elegant wine for everyone to enjoy anytime—before, during, and after meals!

Most people think of port as a ruby-colored, tawny, vintage fortified red wine—but port also comes in white. Lighter in both color and taste than the more familiar red varieties, white port is

made from a blend of white grapes, sometimes with a little red grape juice added.

Like its red-colored cousins, white ports range from very sweet to very dry. You can serve white port as an aperitif, in wine-based mixed drinks, and with entrees featuring fish or ham.

Served in wine glasses, both red and white port complement simple desserts of sliced cheese (traditionally cheddar and Stilton, but experiment with other varieties), dried and fresh fruit, nuts, and chocolate (especially rich, dark chocolate).

Champagne Cocktail

1 teaspoon sugar or 1 sugar cube
3 dashes bitters
Champagne or sparkling wine, chilled
Lemon twist

Place the sugar in the bottom of a flute, and add the bitters. Fill the glass with champagne, and garnish with the lemon twist.

Champagne Punch

Cranberries
Grapes
Orange wedges
2 fifths Sauternes, chilled
3 cups cognac, chilled
6 fifths champagne, chilled
2 quarts club soda, chilled

Place the cranberries, grapes, and orange wedges on a foil-lined tray; freeze for several hours. Just before serving, combine the Sauternes and cognac in the punchbowl; stir gently to mix. Pour in the champagne and club soda (do not

stir the mixture—the bubbles will mix the beverages), and add the frozen fruit.

Fruit-Flavored Sparkling Wine Punch

Fresh fruit of choice
Mint leaves (optional)
Water
2 packages frozen fruit of choice, partially thawed and pureed
1-2 bottles sparkling wine or champagne, chilled
1-2 bottles ginger ale, chilled

Arrange the fresh fruit and mint leaves, if desired, in the bottom of an ice ring mold or other circular freezer-safe container. Carefully add just enough water to cover the fruit but not “float” it; freeze until firm. Add about an inch of water, freeze until firm; repeat adding water and freezing until the mold is full.

When you are ready to prepare the punch, remove the mold from the freezer; either let it sit at room temperature for 15 to 20 minutes or place it in warm tap water for a few minutes. Invert the mold into the punchbowl, and add the sparkling wine and ginger ale (do not stir the mixture—the bubbles will mix the beverages).
