21. Normanton Furniture Company manufacture furniture for office use. Their cost structure per unit of kitchen table includes the following:
Material cost £400, Labour cost £600 and Variable manufacturing overhead per unit £200, fixed manufacturing overhead per unit £100. what is the Unit cost of a table using variable costing method.
- £1,300
 - £1,200
 - £ 800
 - £1,500
- 22 Using the same information as given in Question no. 21, what should be the selling price of a table if the company wants to make a profit of 20% on cost?
- £ 1,440
 - £1,200
 - £1.500
 - £1,80

From the table below, answer Question 23 and 24

Material	Standard	Actual
Price (per Kg)	£5	£4.5
Quantity	700 kg	750 kg
Labour		
Wage rate (per hour)	£10.5	£12
Labour hours	100	105

23. What is Material price variance?
- £350 Fav Variance
 - £375 Fav Variance
 - £ 375 UnFav Variance
 - £350 UnFav Variance
24. What is labour efficiency variance?
- £ 52.5 UnFav Variance
 - £ 52.5 Fav Variance
 - £ 60 Fav Variance
 - £ 60 UnFav Variance
- 25) Beckham's statement of financial position shows the following totals:
- | | |
|-------------------------|--------|
| | £ |
| Non-current assets | 45,000 |
| Current assets | 15,500 |
| Current liabilities | 22,000 |
| Non-current liabilities | 5,000 |
- Beckham's capital in the business is:
- £33,500
 - £60,000
 - £27,000
 - £20,500

 - B Bank
 - C Creditors
 - D Managers

Use the following information to answer questions 13 to 16.

- 13) Which of the graphs in the attached image illustrates total cost?
- A Graph 2
 - B Graph 1
 - C Graph 4
 - D Graph 3

- 14) Which of the graphs in the attached image illustrates total fixed cost?
 A Graph 2
 B Graph 1
 C Graph 4
 D Graph 3
- 15) Which of the graphs in the attached image indicates Break-even point?
 A Graph 2
 B Graph 1
 C Graph 4
 D Graph 3
- 16) Which of the graphs in the attached image indicates loss area?
 A Graph 2
 B Graph 1
 C Graph 4
 D Graph 3

The following data is to be used for questions 17 to 19:

Beauty PLC has incurred the following overheads:

Heating	£20,000
Canteen	£15,000
Insurance of equipment	£7,500

The company uses the following cost driver to allocate overhead:

For heating	Floor space
For canteen	Number of employees
For insurance	Book value of equipment

Information relating to the 3 departments is as follows:

	<i>Department 1</i>	<i>Department 2</i>	<i>Department 3</i>
