

BA Design and Production

Puppet building course October Puppet building course 2nd years

Please could all students bring with them the following:

Scalpel's and blades

Sewing kit (needle and threads in any available colours)

Please note: This course is very intensive, we are planning to achieve a lot in just a few days. As such it is very likely that there will be out of hours work that will need to be completed, this includes research and home study elements. As well as the potential of practical work that may mean additional hours in the workshop. This project will culminate with shared work with BA Acting students.

All students should arrive for the course in appropriate workshop wear, steel toecaps are not required, but long hair should be tied back. Any students who are intoxicated or recovering should be aware they may be asked to leave. This is physically strenuous day that requires group work, full focus and ability is required for your safety

Start time will be 10am in the theatre workshop.

We have a lot to do, but I hope to make it fun. I look forward to meeting you all and creating some really great work.
