Module: Digital Skills and Research Methods

Module code: BMSW4003

Module Leader: Amitave Banik

Student name: Andrada-Elena Stoica

Student ID: 211963

Assignment Title: DSR Assessment 2 Individual Report

***Impact of Virtual Learning Environment (VLE) –
Moodle on students' learning experience at the
University of Wales Trinity Saint David London
Campus.***

Introduction

A virtual learning environment (VLE) is form space for learning and teaching. VLE is a study hall that allows the lectures to communicate with students online. Technically speaking, VLE did planned intended spaces that simulate constructive and sophisticated building.

Main body

This report is based on students answers about impact of VLE on Moodle learning experience. According to the answers I've got back from the questionnaire I did develop and send it to my colleges, VLE has a really good impact for all of us. During the pandemic time, some of my colleagues got ill and they couldn't attend the lessons but with the Moodle app they could access all the lessons and the topics they've been missed. Also, for some of them who works and does not have too much to studies, may not attend the lessons and can access all the topics from the app. The digital technology has played a significant role in that time of the year(s), helping students to don't get disconnected of the studies. Also the online lessons has improved the engagement regarding connection between teachers with students . Thinking that Moodle app is extremely easy to access form many devices (tablets, smartphones, laptops, computers, etc), students can access the app outside the classroom. A large number of students use the app from the smartphone in these days as you know the smartphone became "part of the life"

According to the students' answers, for them is not the first time using a VLE app thinking that some of them are working in different environments. Virtual learning helped the students to practice them skills regarding it competence. Moodle apps provide for the students all the information they need. Benign free of charge, more students are enthusiastic to use the app. Looking deep in the application, Moodle offer you another facility, called "London Students Hall ". On

that way you can get more details about Student Finance, Timetable, Academic Support, IT Services, etcetera.

In my opinion as a student, University of Wales Trinity Saint David offer us the opportunity to improve our knowledge and to achievements for the future. Moodle app is one of the best VLE I've used up to now and I'm really happy and thankful for the university that they give us the opportunity to access it anytime, anywhere and everywhere. For few of the students who they find themselves shy to ask some questions during some the lessons, Moodle app is a bonus for them, being easy to access anytime.

Also, Moodle helps in making assignments providing a chat with all the students from the university, helping each other with suggestions, ideas and collaborate.

Based on the answers from my questionnaire, students are more motivated about the virtual learning process. After the IT engineers develop that application, it offered a huge support for the teachers in their process of teaching.

Conclusion

In conclusion, the experience using VLE regarding the Moodle app has a really good impact over the students.

Questionnaire

This questionnaire have been structure on the responses of the student of university QUESTIONNAIRE

Student Name: _____ Student ID:

Module Name: Digital Skills and Research Methods Term 2 Group:

This questionnaire is for the report on the impact of Virtual Learning Environment (VLE) – Moodle on students' learning experience at the University of Wales Trinity Saint David London Campus. Please complete the questionnaire with your experience on Moodle.

Question 1: How do you find to use Moodle?

A) very easy B) easy C) difficult D) very difficult

Question 2: How often do you access Moodle?

A) never B) once a week C) often D) Most often

Question 3: Are you required to use Moodle outside the lessons?

A) never B) sometimes C) yes D) all the time

Question 4: Does Moodle app provide you all the information you need regarding the library/student hall?

A) not really B) yes C) almost D) Pretty much

Question 5: Did you use another type of VLE (virtual learning environment) before Moodle on UWTSD?

A) not at all B) maybe once C) yes D) every day

Question 6: Are you motivated to study online via Moodle?

A) Yes B) No

Question 7: Does VLE on Moodle give you a positive impact as a student?

A) No B) yes

Question 8: How satisfied are you about Moodle?

A) Not at all B) No C) yes D) very satisfied

Question 9: How many hours do you spend per week using Moodle?

A) 1-2 hours B) 3-4 hours C) 6-8 hours D) 10 or more

Question 10: Have you faced any technical problem logging in on Moodle?

A) not at all B) sometimes C) yes D) all the time
