Dear Mr Jim Taylor

I am writing to enquire as to whether you have any vacancies within your company.

I have recently graduated from UWTSU where I was studying Surface Pattern Design. I feel that all the skills and knowledge I have gained will be of value to your company and feel I could bring a new edge to the design team.

I have experience of working with numerous materials from fabric to steel. Throughout my course I have had work shortlisted with the Idott wallpaper competition and I have exhibited in 2 National Museums of Wales. Also, I took part in a live brief set by yourselves, where you decided to take my design of layering and embossing the scrap material, make it into a stool and exhibit it in Clerkenwell Design week 2019.

I believe I could be a valued team member as I am very hard working and carry out every task to the highest level, while employing excellent time management skills. I have done numerous presentations and have actively assisted in workshops some with the university, one with the Mission Gallery and another with Oriel Myrddin Gallery. I believe this shows I have good communication skills alongside my excellent creative skills.

Please find enclosed a copy of my CV and images of my work for you to look at, also you can view my website at: <https://emmajanevaughan.wixsite.com/designermaker>. I would like to thank you for taking the time to read this letter and I would love the opportunity to show you my portfolio at a time that is convenient for you.

Yours Sincerely

Emma Vaughan

Emma Jane Vaughan Designer Maker

Personal Statement

I am a designer maker who loves to make ideas and drawings come to life, using an array of materials which I am accomplished, From hand cutting silver to lazer cutting acrylic and water jet cutting steel. Having a diverse skill set allows me to achieve the best possible outcomes, with many new and exciting ideas along the way. My strong drawing skills enhance this ability and are constantly seen within my sketchbook. From each new idea to producing the final piece, each designprocess is completely unique to suit the specific needs of a brief.

Photoshop - basic understanding
Illustrator- files for laser cutting and water jet cutting - able to create complex files

Education

2020 SURFACE PATTERN DESIGN (PENDING)
UWTSD

2017 ART & DESIGN FOUNDATION (DISTINCTION)
Gower College Swansea

Experience

JUNE 2019 - ANNA LEWIS, DESIGNER MAKER

This placement I was able to learn new skills such as wax carving and electro forming. I was also given the insight on how to price my work and the best places to start selling. Anna Then asked me to assist her on workshops, one in particular was run by the Mission Gallery and was for 13/14 year olds. I was to lead half of the workshop, so I collaborated with Anna to discuss what materials I needed and I also created sample boards to demonstrate.

JULY 2019 - JULIA GRIFFITHS JONES, MAKER

This placement involved planning a workshop for adults in Oriel Myrddin Gallery Carmarthen. I prepared many samples within the studio, of which I would demonstrate within the workshop. Not only did I gain invaluable knowledge of the working with a Maker, but I was also able to create a contact with the gallery manager and find out how the source work to be exhibited

Exhibitions

2020 Print Sale
Creative Bubble, Swansea

2019 CLEKENWELL DESIGN WEEK
Live brief with Orangebox

2019 REMAGINING THE ARCH
St Fagans's National Museum of History, Cardiff
