

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
1. Engagement with Literature Skills		
It is obvious that some research has gone into web security and how it affects your website, but you have not supplied any references to back this up	15	6
2. Knowledge and Understanding Skills		
Lack of complexity in the design of the DB is obvious and there are no related elements present and with a little more effort and possibly a ERD of the situation, creating a database that relates to "other" elements in this app could have become a possibility	10	3
3. Cognitive and Intellectual Skills		
From what you have research, it is a healthy discussion on the documented web security problems, but you should have linked to elements within your website to demonstrate this i.e., code snippets. With regards to broken access control, you need user accounts with access levels to fully implement this (strangely enough this was covered in lectures). Also, visiting OWASP Top 10's site, you would have found snippets of good practice that should have been used in this website (fortunately, you have a solution for the SQL Injection problem via prepared statements, but why did not research it ?)	15	6
4. Practical Application Skills		
Nice work on the carcass of a data driven website, all tables presented for management are able to do so. However, there is no related data present to demonstrate an extension to your skills. Marks are somewhat limited to level of complexity	60	31
5. Transferable Skills for Life and Professional Practice		
	N/A	

Assignment Mark (Assessment marks are subject to ratification at the Exam Board. These comments and marks are to give feedback on module work and are for guidance only until they are confirmed.)	Late Submission Penalties (tick if appropriate)		46
	Late Submission ?		
	1st/2nd/3rd attempt?	1st
