

Q2.

My Favourite Place

My Favourite Place is UWTSD, this is due to the fact that one is Beginning to learn a lot more Engineering Principles and apply them to the workplace.

My Favourite Subject thus far is Materials and introduction to Processes.

It has taught me how to choose certain materials when Designing. The main topic which has helped this, is Merit Functions.

Particularly I have learnt how to calculate specific strength, thus incorporating it into my work Designs.

At UWTSD My Favourite lecturer so far is Chris Wyatt. Whom at which is Really this Right now and probably Laaghtly.
