

HOW TO INSERT HYPERLINKS IN A POWERPOINT

Step 1

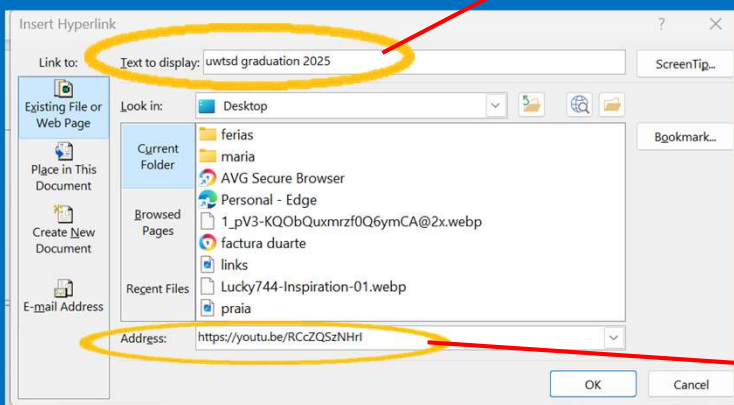

Step 2

❖ After you **press Link**

❖ You can choose the **text to display** (Link name)

Step 3

❖ You can choose from:

✓ Existing files or Web page
Email address

✓ If you already have the
address link
just add it to the **address box**

After you press OK

This is the way that the link
will show in your **PowerPoint**

Final Result
