Marked By	Nitheesh Murugan Kaliyamurthy

Engagement with Literature Skills	15
Feedback	Marks
Could have referred to more sources and materials in addressing the coursework. Just two sources of reference and very basic description of tasks in the report. Needs a lot of improvement. Key concepts (possible security breaches, threats, vulnerabilities, attacks, .meds) discussed. The report is well associated with the scenario given. However, the descriptions were very basic and not adequate. Literatures referred to the work are not adequate. More academic credible literatures could have been referred to the work.	7.9

Knowledge and Understanding Skills	15
Feedback	Mark
Only two possible security breaches were discussed. They were well addressed with appropriate references and citations. Other than those two, the report covers only basic description on threats, vulnerabilities, attacks and the .meds. Very poor work. Needs more improvement. Could have added more possible security breaches, threats and attacks related to the scenario and cited them with relevant literatures. Could have added more evidences to the statements used.	6.4

Cognitive and Intellectual Skills	20
Feedback	Mark
Very basic work done on security measures. More adequate details could have been discussed to enhance the security of the given infrastructure (scenario). Could have referred to more industry specific policies and its guidelines. Just writing 11 points does not meet the required task to provide a guideline. The organisations of ideas and evidences needs improvement.	7.6

Practical Application Skills	40
Feedback	Mark
Packet Tracer done Other than Packet Tracer Course completion, no other practical tasks were done.	10

Transferable Skills for Life and Professional Practice	10
Feedback	Mark
Flow of ideas are ok. Could have added abbreviations/ definitions of technical terms used in the report.	3.1
Overall Mark	35
