Some Top Tips About
Internet Safety &
Being Online

Internet safety is very
important to everyone,
no matter what your age,
You need to protect yourself

Chatting online to strangers is hard to avoid,
but can be dangerous,
so be aware of the risks and try to limit those conversations

Passwords are important, try to keep them private,
Never share your passwords
Make passwords hard to guess

When clicking links make sure you trust where they are taking you
Some links may contain a virus, or take you somewhere you don't want

Online Bullying is never acceptable
If you feel threatened or bullied, Always report it and seek help
and advice from a trusted source

Filling out online forms can be dangerous
Always get advice from a trusted source if there is any
doubt

Be wary of giving out any, or too much private information

Try to only use websites suitable for your Age range
Websites and chatrooms are targeted for different ages
Lots of adult content can be found by accident, so take care

Gaming can be fun online, but it may cost you
You may find yourself spending money on content
Be sure you know the pro's and con's

Try to limit your time online
Don't lose out on the real world
The internet can become addictive
