Digital Skill Stay Safe Online

Use Strong and Unique Passwords

Create long and complex passwords with a combination of letters, numbers, and symbols. Use a different password for each account. Consider using a password manger to store and generate secure passwords.

Enable Two-Factor Authentication (2FA)

Activate 2FA whenever possible to add an extra layer of security. use authentication APP or SMS messages to receive verification codes.

Be Cautious with Emails and Messages

Do not click on links or download attachments from suspiciious emails. verify the authenticity of the sender before providing personal information

Use Secure Connections

Avoid using public Wi-Fi networks to conduct sensitive transactions or access confidential information. use a virtual Private Network (VPN) to encrypt your connection and protect your privacy

Be Careful with Phishing

Learn to identify fraudulent emails and websites that attempt to steal your information. Never enter personal information on websites accessed through email links.
