... more personal and answered us to gain a deeper understanding of.

... and willingness to expand their answers also highlighted the value of
... g environments, where dialogue can enhance understanding.

... nse from the speakers to our questions demonstrated the importance
... engagement in academic settings. By working with my peers to
... bute meaningfully to the discussion.
... p communication and teamwork
... anted to learn from the session.

... g on the structure of the session, it became clear that waiting until the
... ns limited the opportunity for deeper exploration of key points as they
... s had been asked throughout the presentation, it may have
... e dynamic and interactive discussion, allowing for clarification and
... in real time. It also highlighted the importance of active participation
... ortunities, rather than adopting a passive approach until the end.

... ence was highly valuable and contributed significantly to my
... community-based support work. However, I also learned that the
... ion plays a key role in important learning. By delaying questions until
... ortunities for deeper discussion were missed. This reflection has
... portance of being actively engaged throughout learning sessions
... rather than waiting for structured discussion points.

In future sessions, I will aim to be more actively engaged throughout presentations by asking questions at appropriate moments rather than waiting until the end. This will help me clarify information in real time and contribute more effectively to discussions. I will also continue to collaborate with peers to prepare thoughtful and relevant questions in advance, ensuring that I am fully prepared to engage with guest speakers. Additionally, I will work on building confidence in contributing during live discussions, as this will help me develop stronger communication skills and enhance my overall learning experience.
