

ARCHITECTURE STUDIO 1A

TASK 4 **FREEHAND**

During class we explored the techniques of freehand drawing, finishing with the “drawing-my-hand-without-looking-at-the-paper” exercise. Your logbook task for this week is to draw your hand again – this time you can look at the paper!

Get into a comfortable position at a desk or table. Place your logbook on the table in a position that will allow you to draw comfortably -- you may need to stick it down with drafting tape to stop it sliding.

Hold the hand (the one that you do not draw with) in the way shown in the sketch below -
- you may find it easier to rest it on the table or desk. Place your thumb on your first or second finger. Draw your hand in as much detail as you possibly can.

Use your black gel pen or fountain pen -- and try to fill the page completely.
