Comments:

You talk about large amounts of data - what kind of data are you using in the WOW project?

What design techniques will you use to develop & design the database schema?

- Your controlled group will use the software that you have developed - what difficulties do you think you might encounter developing the software prototypes.

- How did you gain the user specification?

This is an experimental project - how are you going to measure the advantages & disadvantages of each development environment?

- Good slides & strong presentation

- What method of research are you using?

Good Q&A section -

- Questions aimed at end users & developers?
- Need to customise how effective was the initial spreadsheet for WOW?
- Generally a suitable presentation you need to focus on your development
