- Membership fee
- Security
- Immigration

Arguments against 'Brexit'

- Single Market
- Global Role and Defence
- Immigration
- NHS
- Education and Research
- Jobs and Pay

Objective

This research hopes to analyse and clarify how UK citizens experience being a member of the the European Union and why it would be a good/bad idea to leave or remain a member in the EU. These are just some examples of the types of questions that will help obtain this information:

- How people feel about the EU?
- Do they believe it is an advantage or disadvantage for the UK's membership?
- Have they benefited in being apart of the European Union? If so, then How?
- Are they Secure?

This research will be gathered primarily through interview questionnaires.

European Union - Qualitative Data Analysis

5.Most	0	5

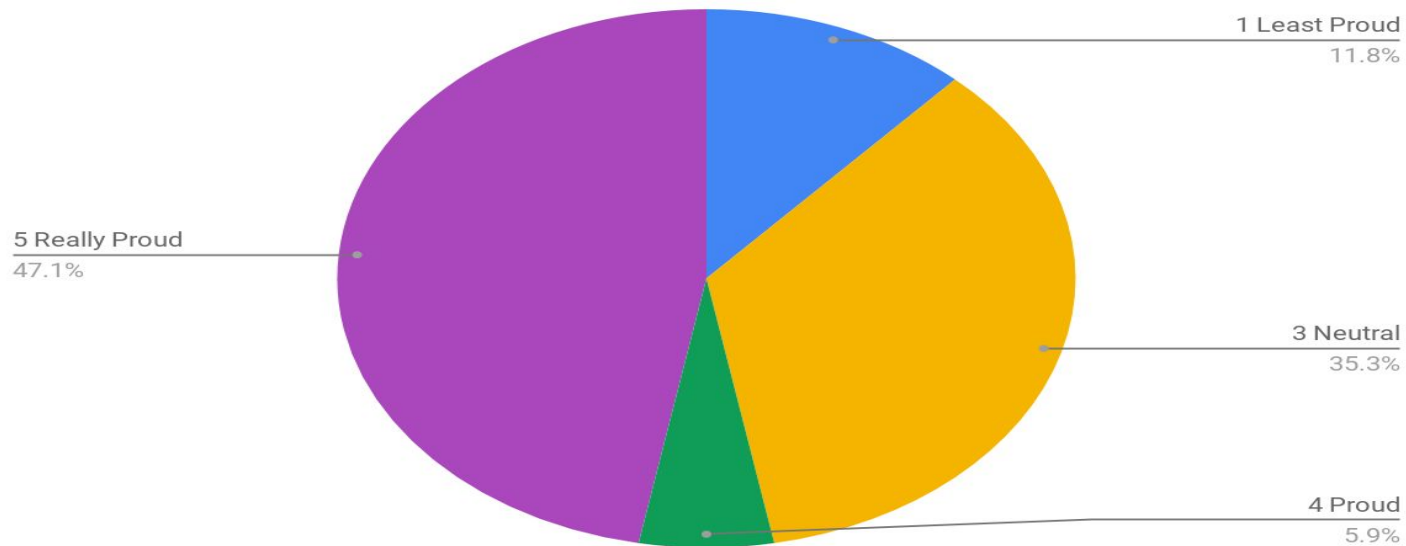

14. How often do you travel within the Eurozone?

Points scored

15. On a scale of 1-5 how proud are to be in the UK?

Points scored

Conclusion / Recommendation

In conclusion, Brexit will happen and when it does happen the only option we have as citizens of the United Kingdom is to observe how we move forward. The Government's decision to leave could seem like something wrong but the truth of the matter is that maybe there is a chance we might be better off. I recommend that people need to see change as a positive thing and be comfortable with not knowing what will happen next. With this presentation I have learned that many people enjoyed the country the way it was before brexit. People are just anxious towards why the Government decided to leave the European Union but in reality the Government would not have chosen to leave if they knew their country would be worse off.
