All, as a management team it is extremely important that we all attend this meeting, it is the start of the Investors In People Assessment and requires the management team to be on-board.

At this meeting we will look at where we believe we are in terms of the IIP standard and what our vision is of where we would like to be, this meeting has to take place prior to our employees meeting with our IIP representative.

We have a really tight time frame to do this, so very little flexibility to change the date, please do your best to attend.

Thanks

Jackie
