

PARENTAL OR GUARDIAN CONSENT/PERMISSION FORM

Project Title: *Study on the perspective of singing students aged 10-12 years to Semi-Occluded Vocal Tract (SOVT) exercises*

Researcher: Dani W. Dumadi

Consent to take part in research

- I, **Henry Yenty**....., parent/legal guardian of **Andrew Samuel Widjaja**....., voluntarily agree to have my child participate in this research study.
- I understand that even if I agree to have my child participate now, I can withdraw my child's participation at any time.
- I understand that my child and I can refuse to answer any question involved during the research process without any consequences.
- I have been explained the purpose and nature of the study and have had the opportunity to ask questions about it.
- I understand that participation involves practical vocal exercises such as lip trill, tongue trill, blowfish, straw phonation, and interviews or filling out forms.
- I understand that my child and I may not benefit directly from participating in this research. I also understand that no money will be involved that affects my child and me regarding participating in this project.
- I agree that my child's interviews and activities for this project are audio and video recorded.
- I understand that all information my child and I provide for this study will be confidential.
- I understand that in any report on the results of this research, my child's identity and I will remain anonymous. This will be done by changing my child's name and disguising any details of my child's interview which may reveal my child or the identity of the people he/she speaks about.
- I understand that signed consent forms and original audio and video recordings will be retained in the researcher's personal Google Drive until his grades from the university have been finalised.
- I understand that under freedom of information legalisation, I am entitled to access the information my child and I have provided at any time while it is in storage as specified above.
- I understand that I am free to contact any people involved in the research to seek further clarification and information.

- I understand that my child and I can refuse to answer any question involved during the research process without any consequences.
- I have been explained the purpose and nature of the study and have had the opportunity to ask questions about it.
- I understand that participation involves practical vocal exercises such as lip trill, tongue trill, blowfish, straw phonation, and interviews or filling out forms.
- I understand that my child and I may not benefit directly from participating in this research. I also understand that no money will be involved that affects my child and me regarding participating in this project.
- I agree that my child's interviews and activities for this project are audio and video recorded.
- I understand that all information my child and I provide for this study will be confidential.
- I understand that in any report on the results of this research, my child's identity and I will remain anonymous. This will be done by changing my child's name and disguising any details of my child's interview which may reveal my child or the identity of the people he/she speaks about.
- I understand that signed consent forms and original audio and video recordings will be retained in the researcher's personal Google Drive until his grades from the university have been finalised.
- I understand that under freedom of information legalisation, I am entitled to access the information my child and I have provided at any time while it is in storage as specified above.
- I understand that I am free to contact any people involved in the research to seek further clarification and information.
