Questions

- **Why did I choose my tools?**

- - I chose PowerPoint because it is good for me to create professional documents with text. It helps me present business information clearly and in an organized way.
- - In my opinion, PowerPoint will be the perfect solution for me while working on this project because it's easier to understand when using it.

- **What information I used**

- - I used Business Name: Fresh Bite Meals
- - I added Menu Categories- Simple and logical headings based on the manager's suggestions Breakfast, Lunch, and Snacks, Drinks with some pictures.

- **How I created my artefact**

- -First, I used PowerPoint to design the menu layout, using simple headings, prices, and a few pictures, organizing the items into clear sections.
- -Then I used again PowerPoint to put everything together on a single page, ensuring the text was bold, the prices were clear, and the final document looked clean and professional.

- **What changes did I make?**

- - I changed the workflow by designing the layout in PowerPoint first, then combining everything into slides.
- - I also added photos that might interest the customer
- - I corrected the spelling mistakes and I bolded the headings

- **What feedback did I use?**

- -I used the exact simple headings the manager asked for *Breakfast, Lunch, Snacks and Drinks*
- -I used the price list that the Manager sent me to make a professional menu.

- **Final explanation**

- I used the details from the manager's note, like the Fresh Bite Meals brand name, the list of food, and the prices. I followed the manager's feedback by keeping the design very simple and professional. I used the exact headings they wanted, which were Breakfast, Lunch and Snacks, Drinks.
