- The first model I made which I used to make modeling the other guns easier.
- I watched this tutorial to help me with the modeling.
- [Gun Modeling \(Part 01\) : Body Blocking - YouTube](#)

- I didn't include this gun as the typology was not good enough for me to UV unwrap it. I knew what to do differently with the other models after failing this one.

MEL

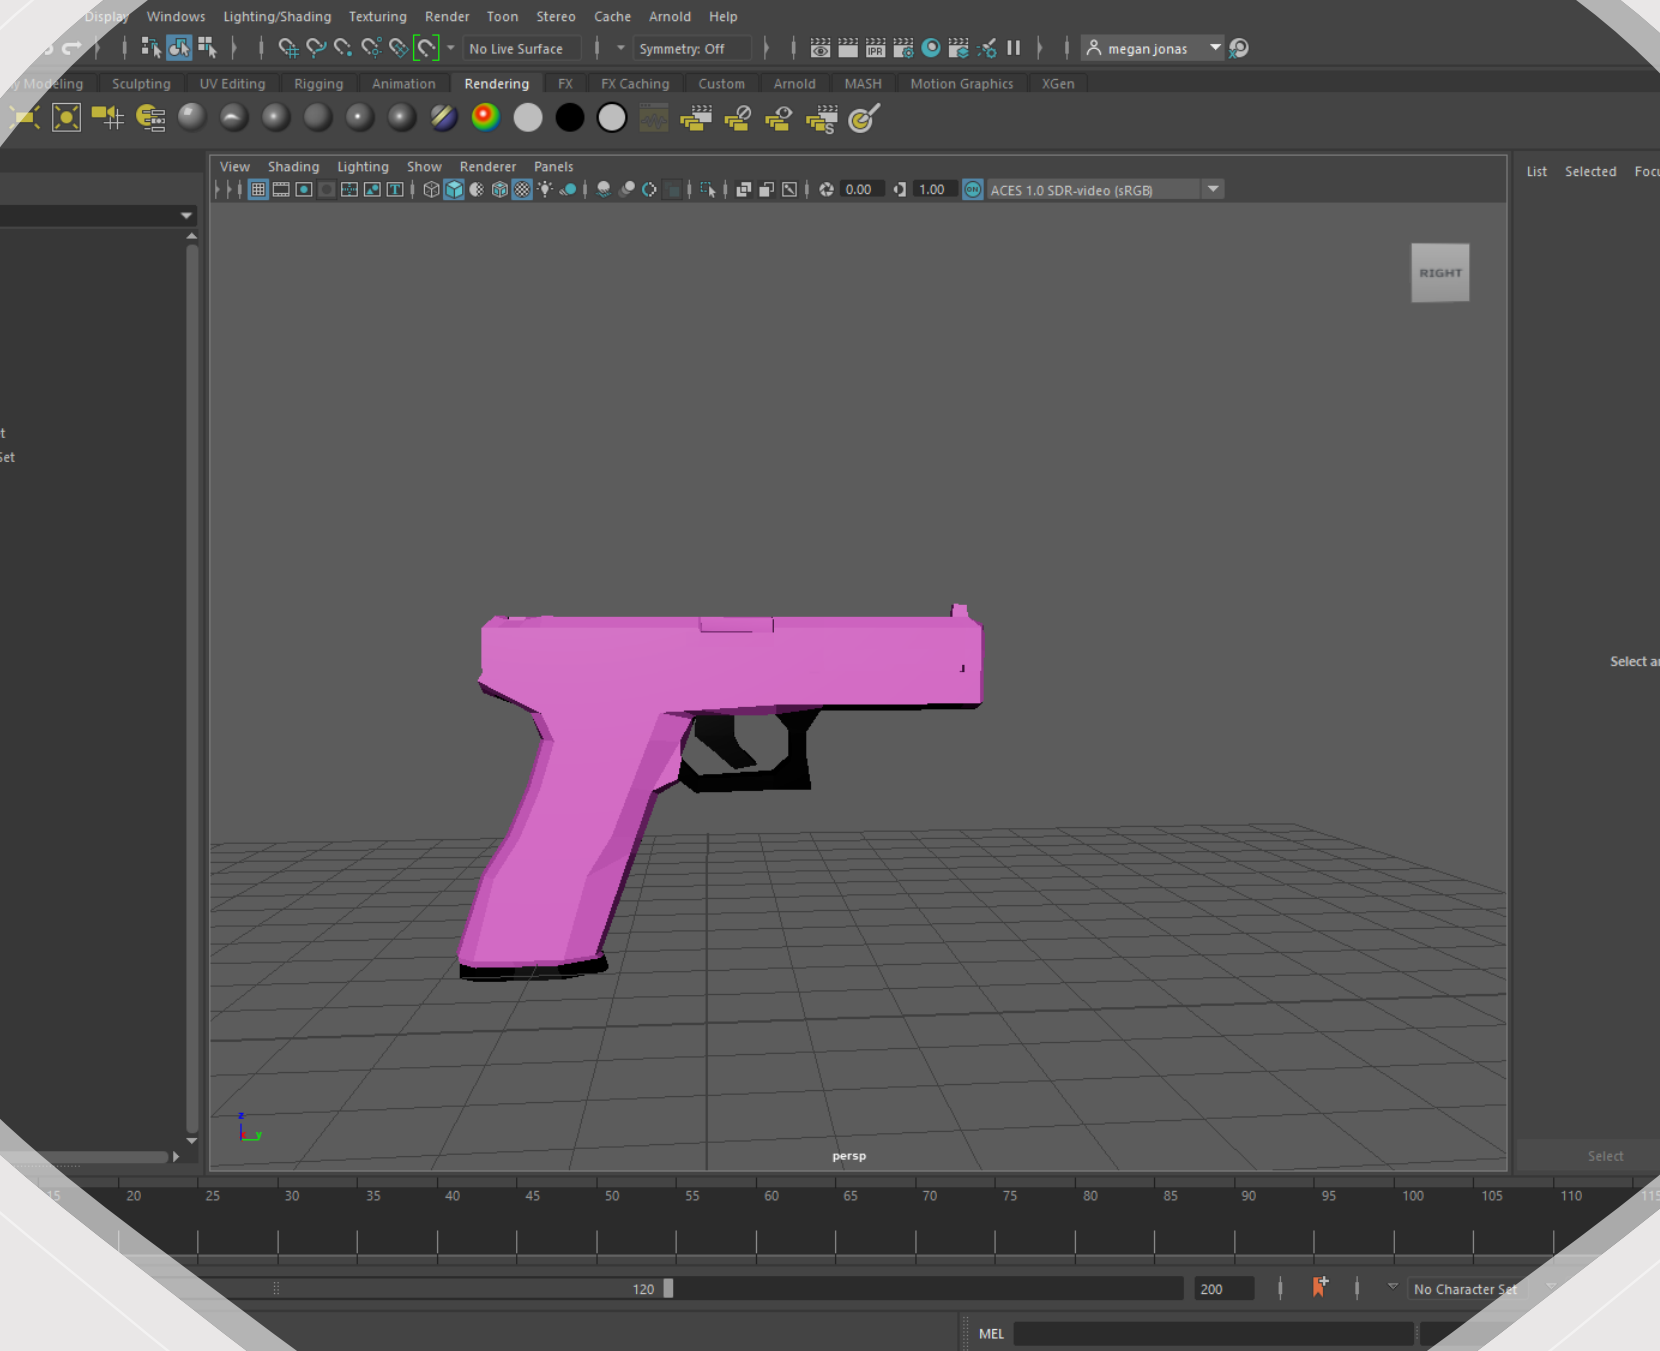

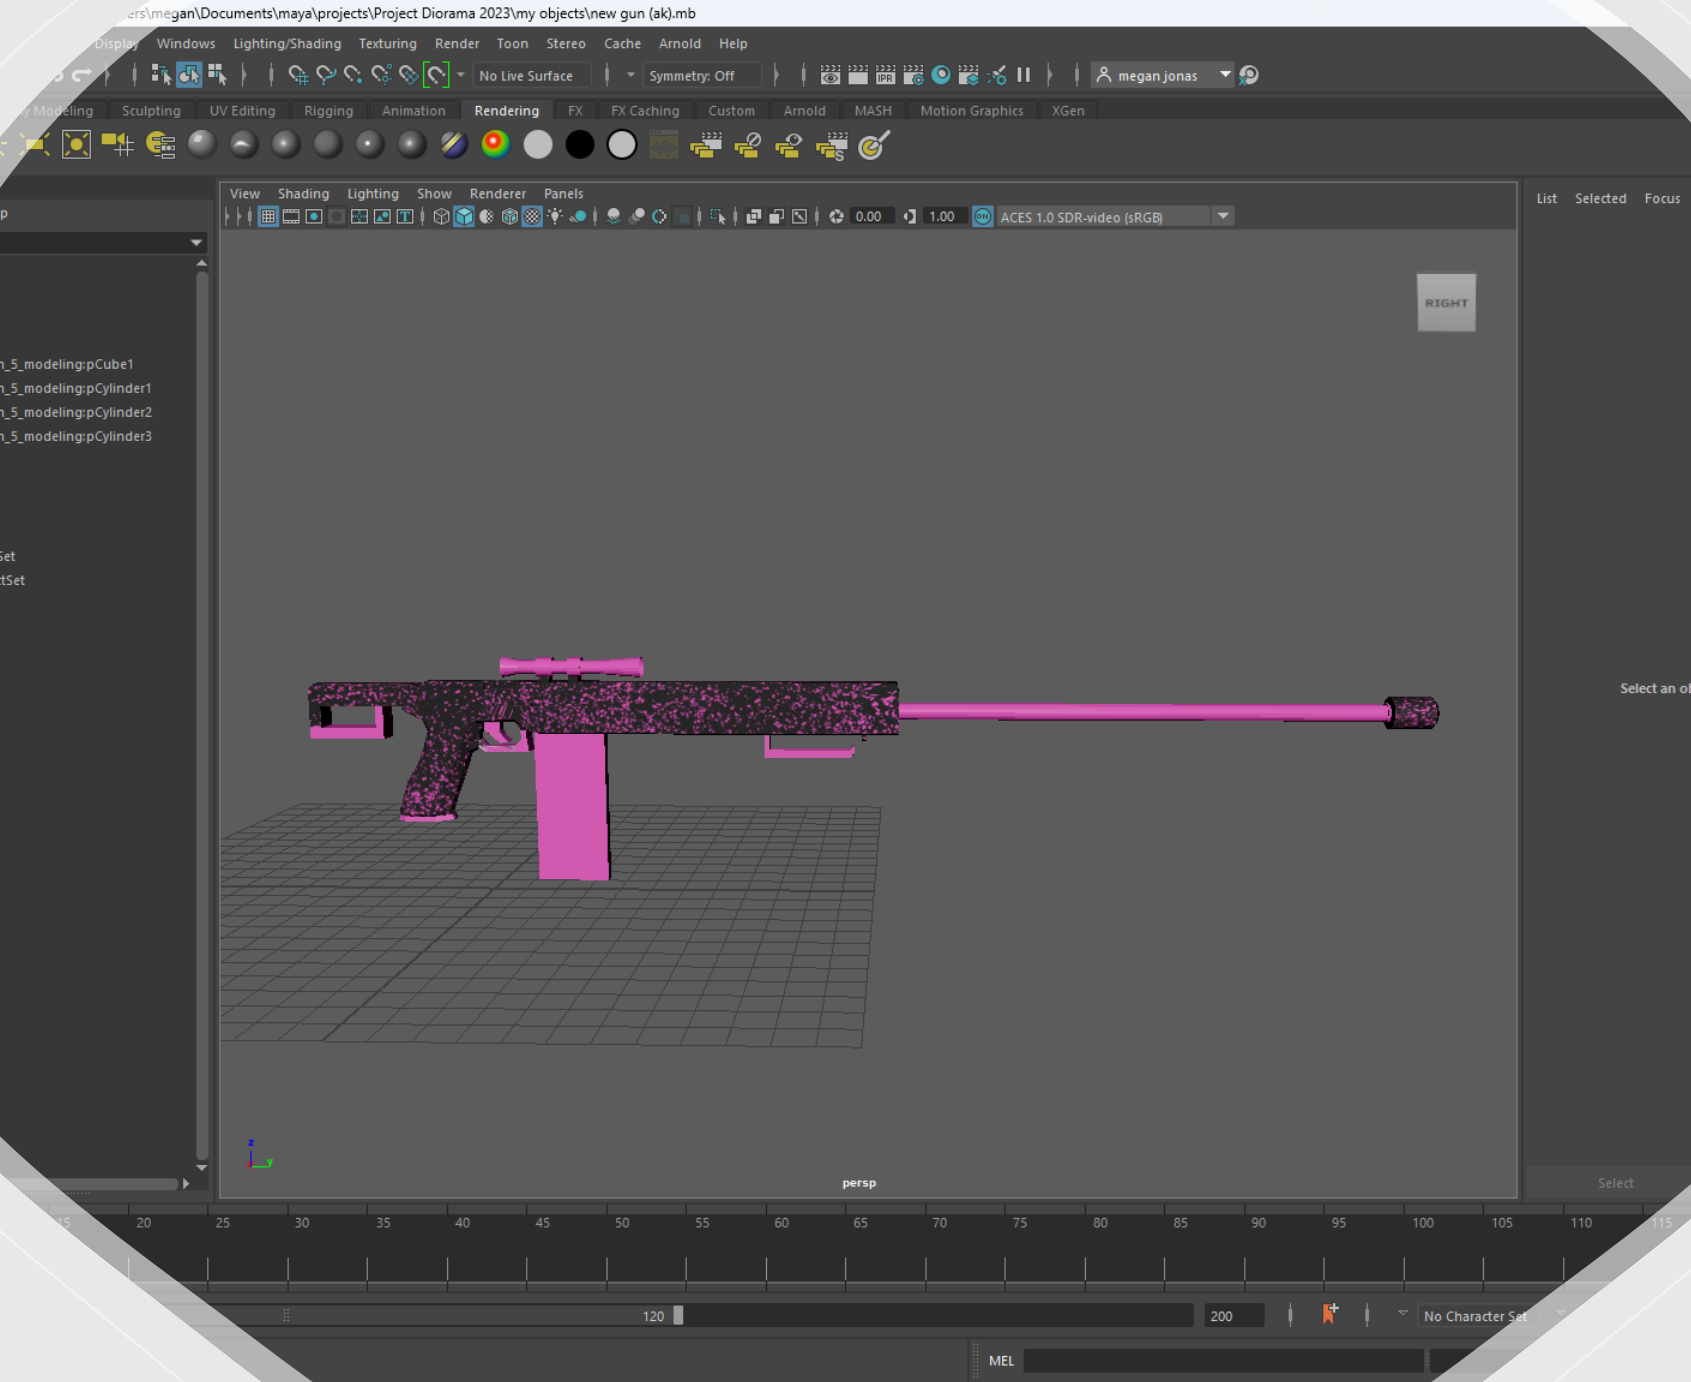

UV unwrapping

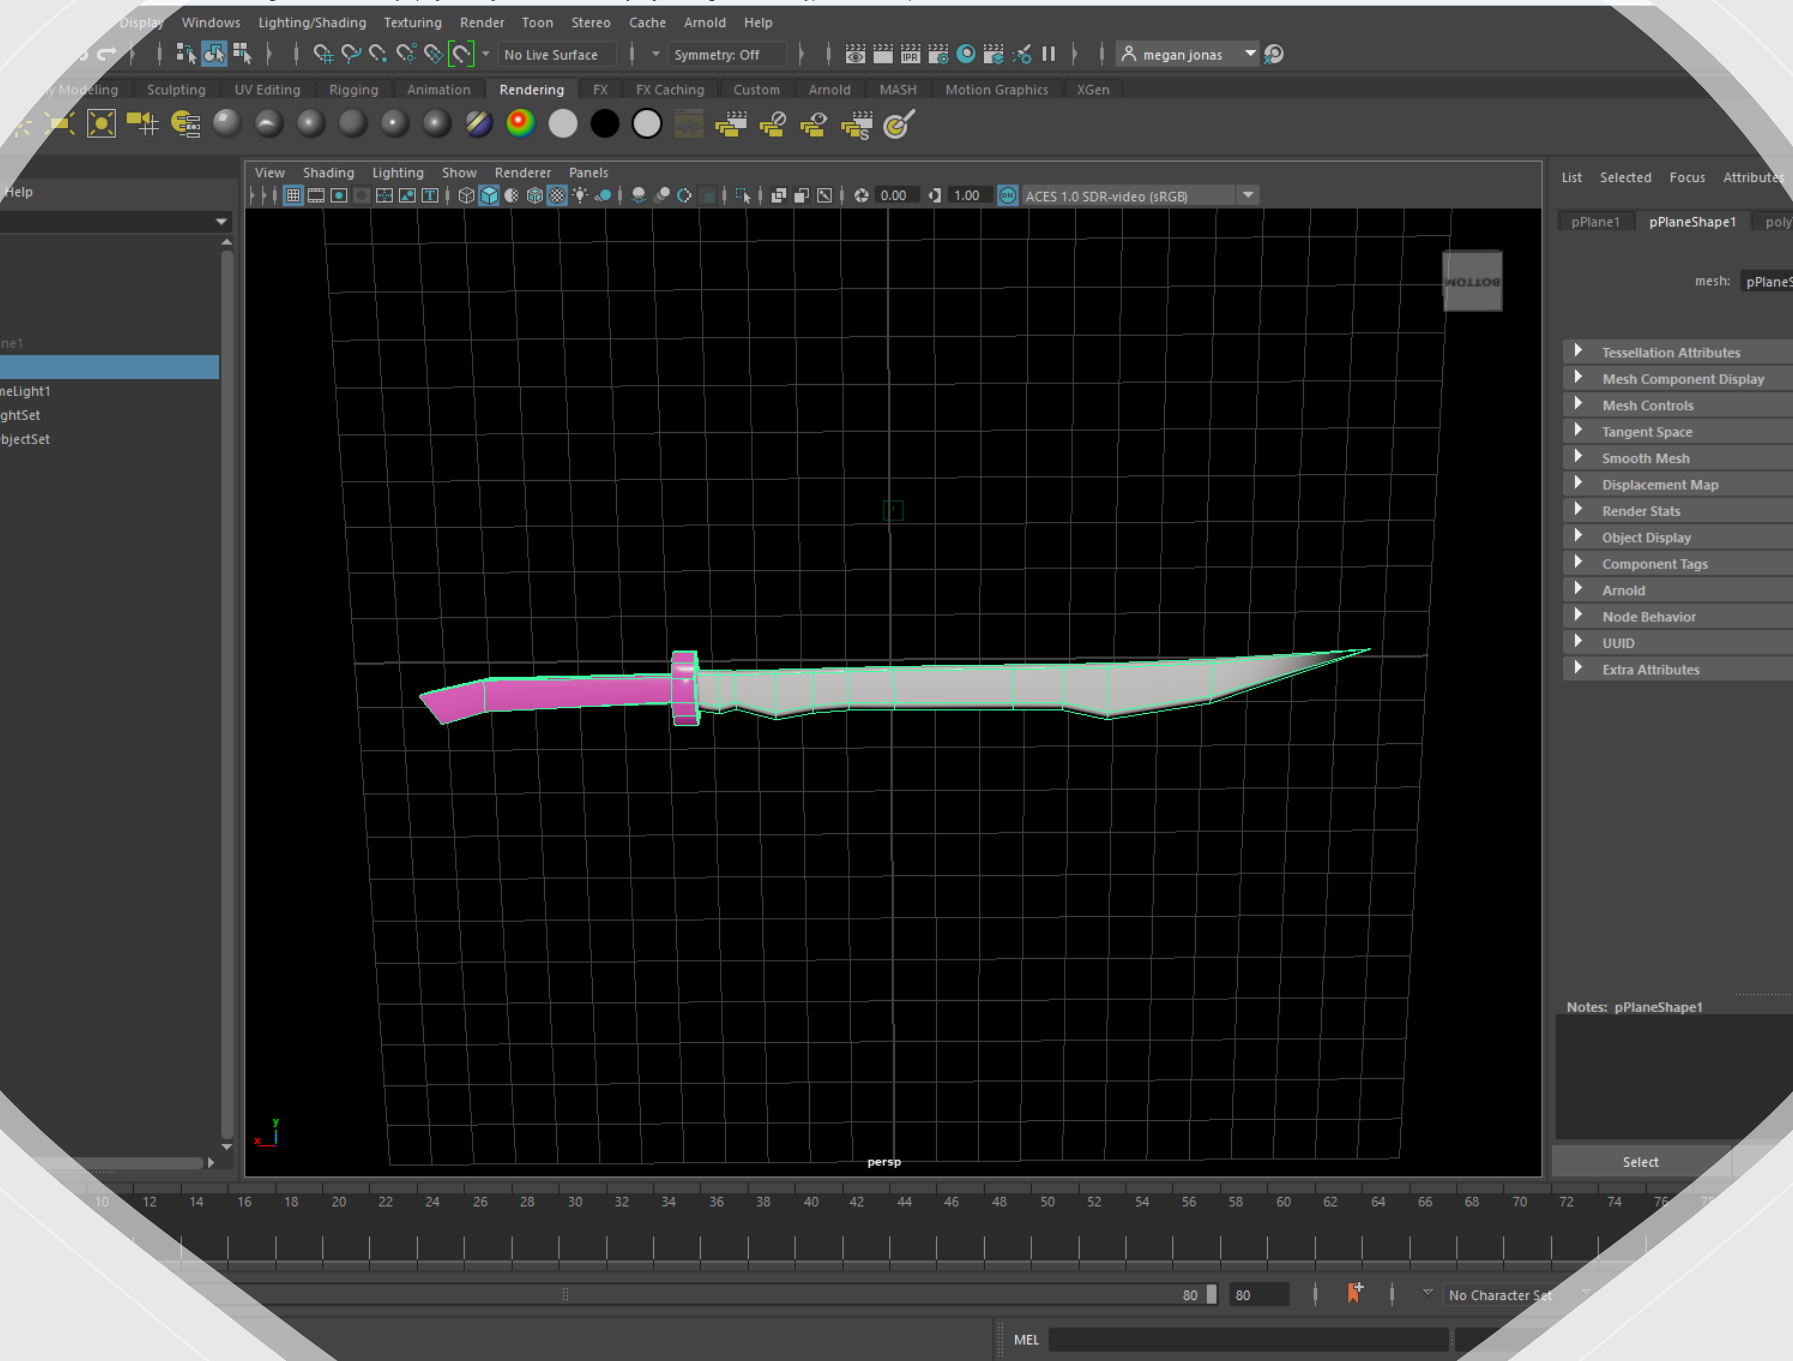

- This is an example of one of my clean and successful UV maps

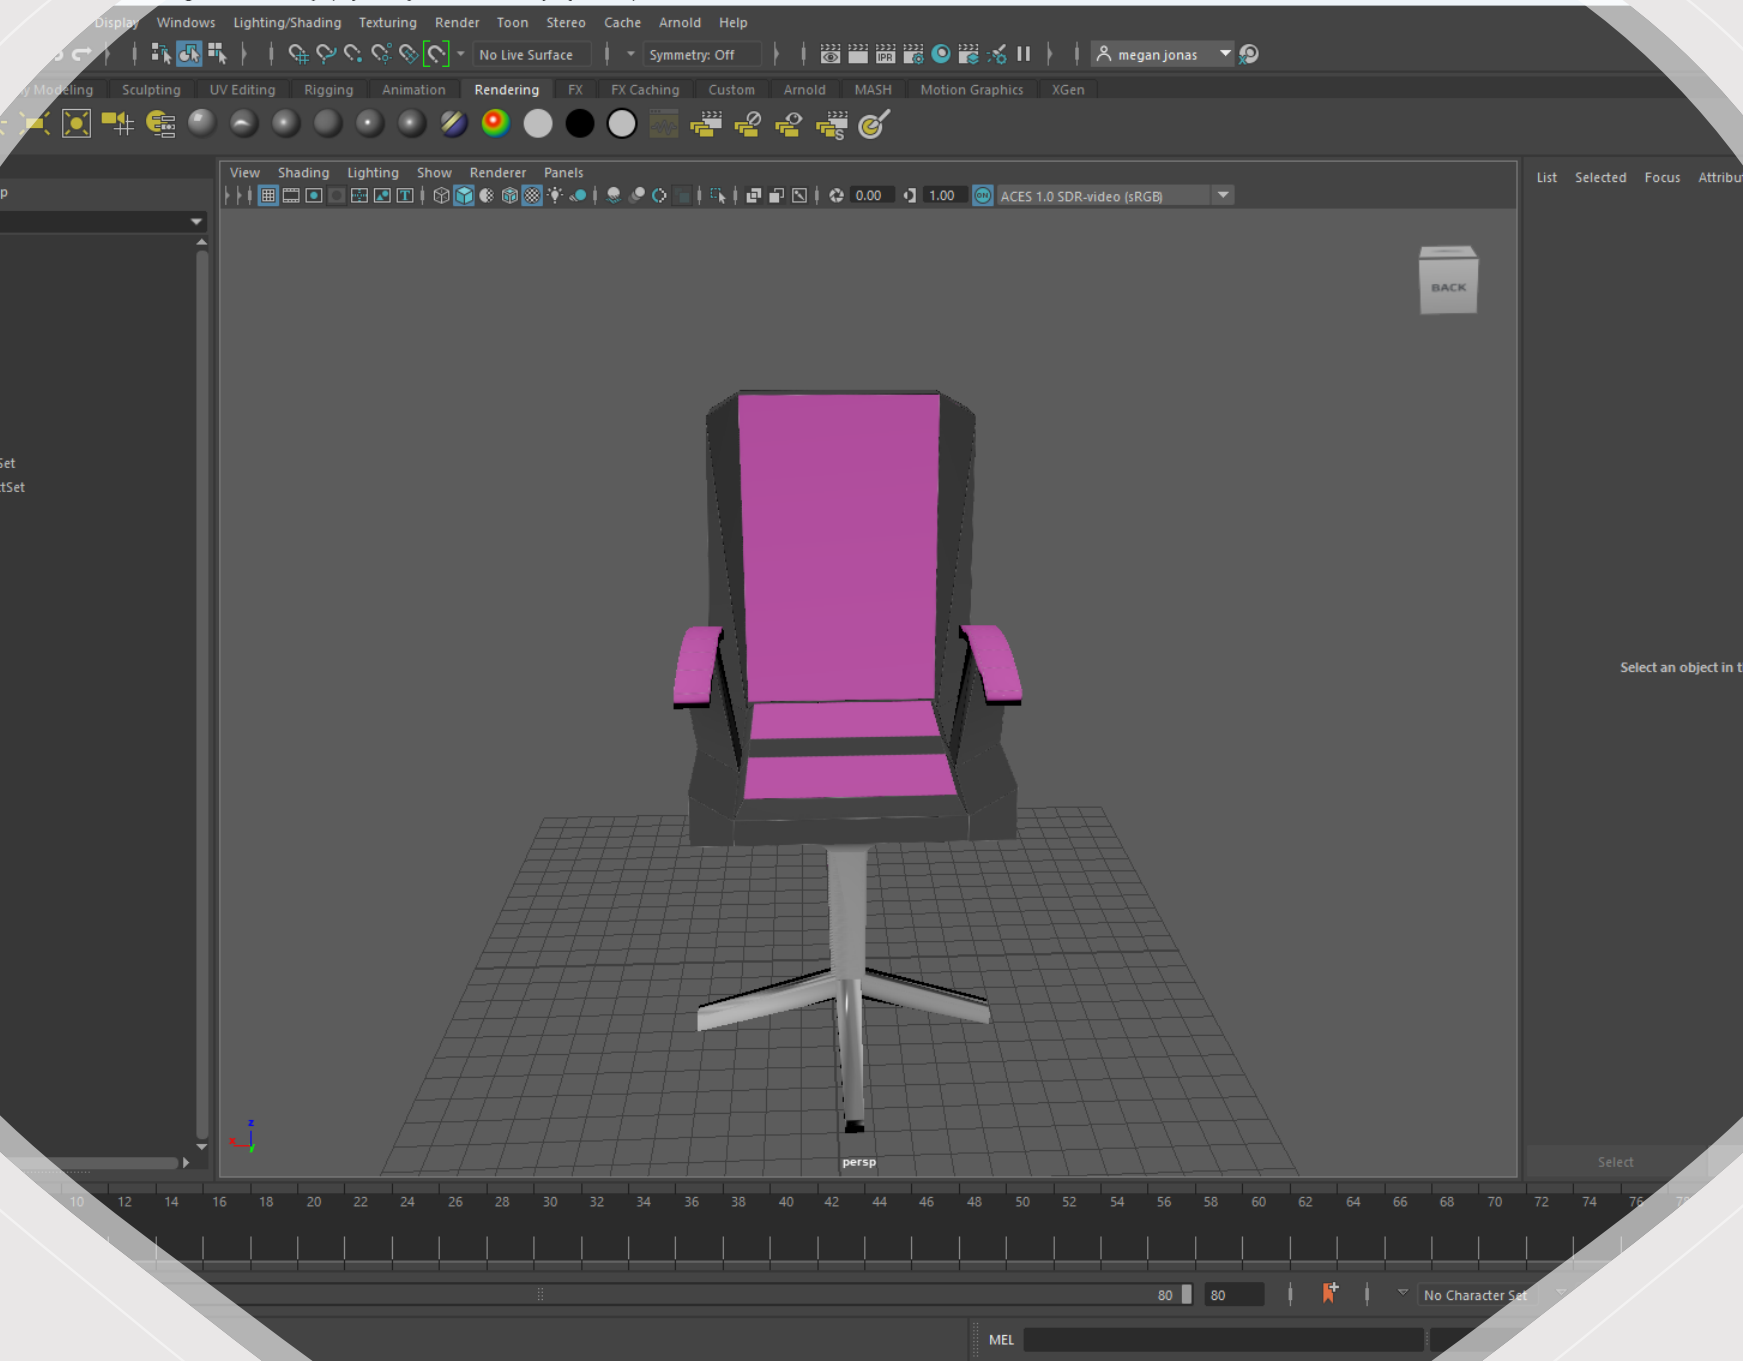

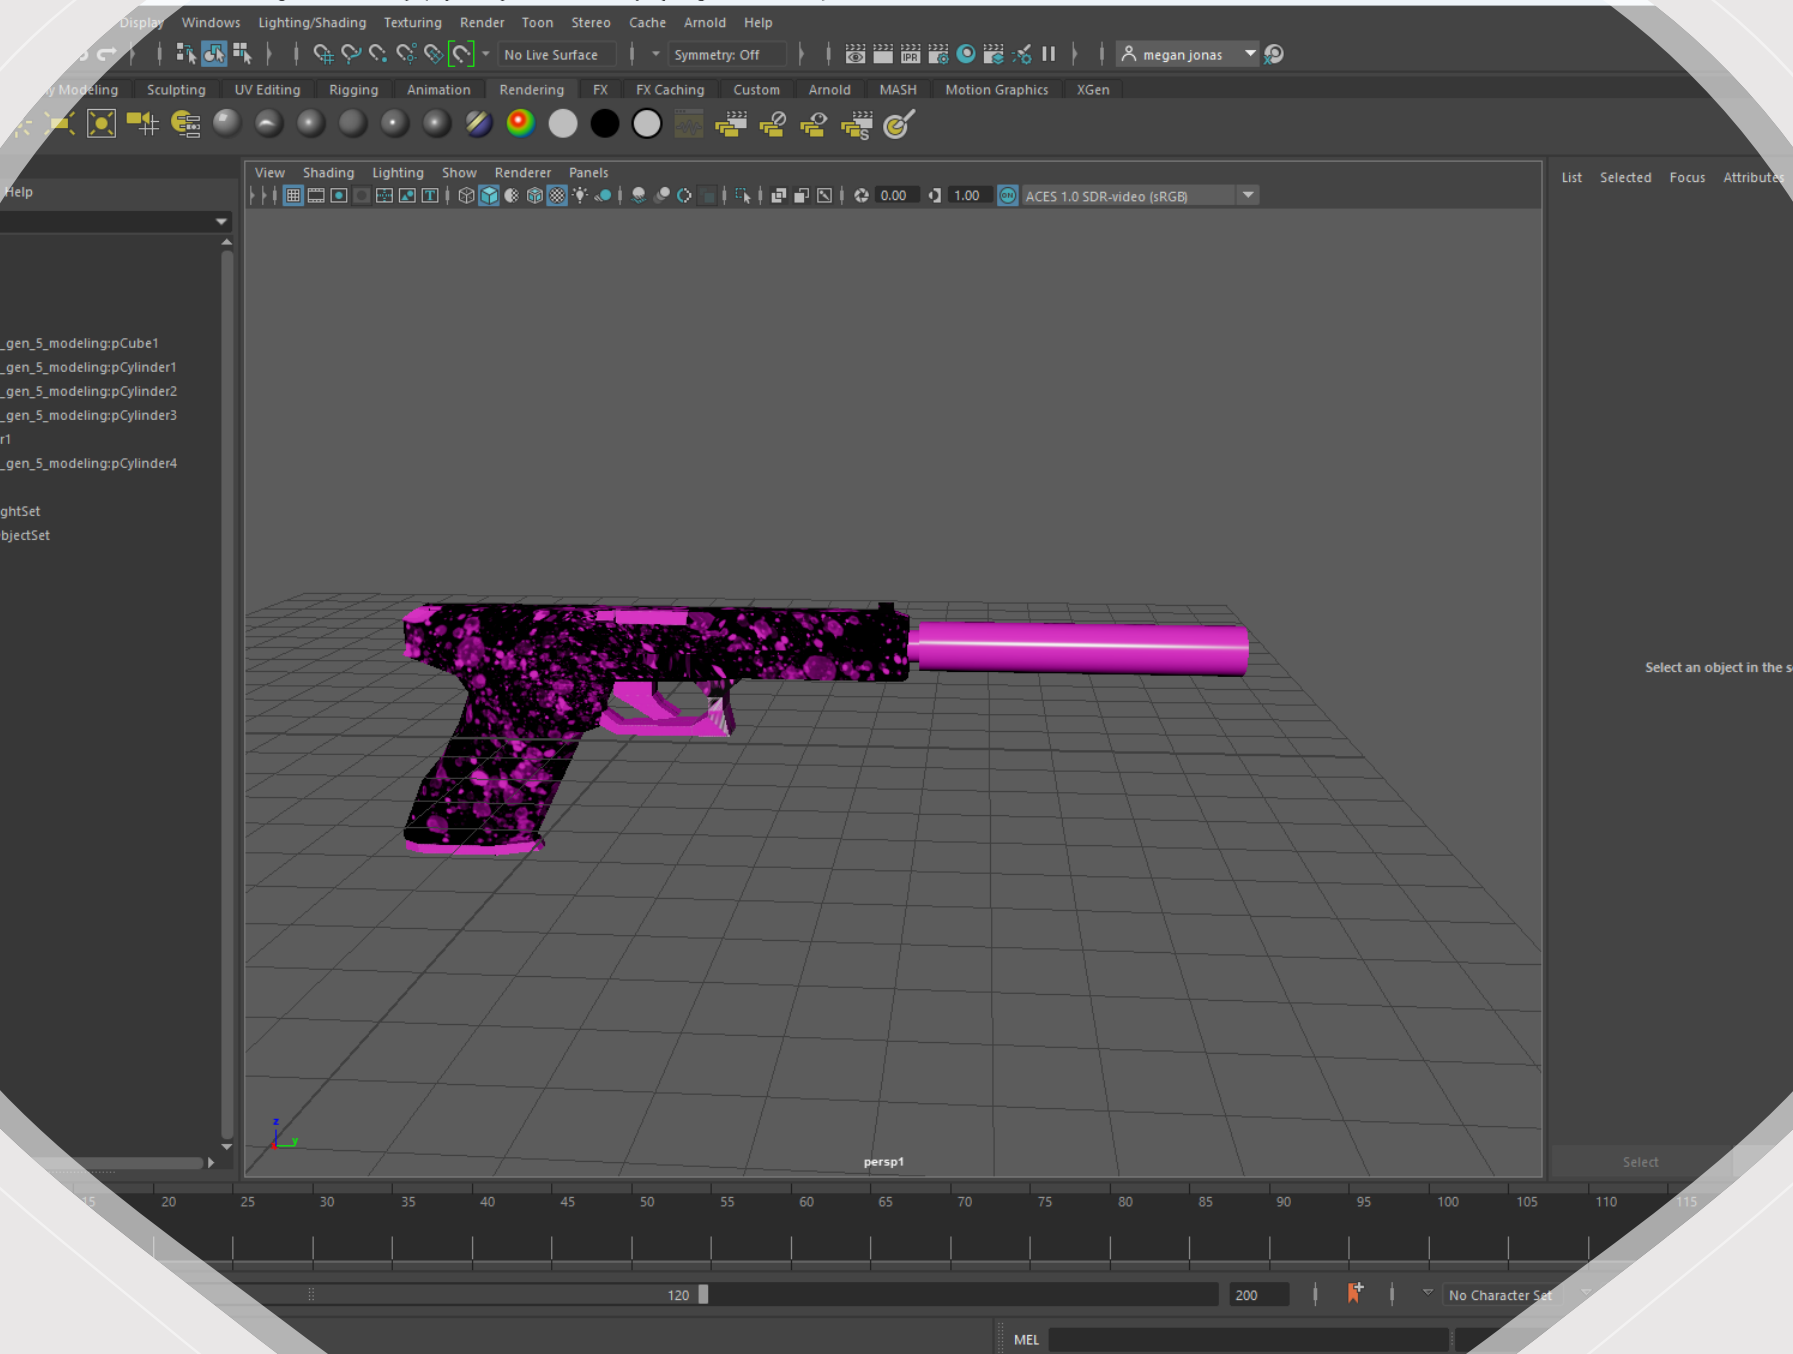

- This is an example of bad typology where I had to back and fix edges and vertexes to UV unwrap.
