

MUSIC EGG

Pre Production (ADGD7006)

STUDENT: Shiyang Wang

随着时间的流逝，人也许离开了，但他曾经珍惜过的物品承载其的回忆却在时间的消逝中留存下来。

As time goes by, people may have left, but the memories of the items he once cherished have survived the passage of time.

egg stands on the gift rack, and there is a special price tag below it, from 40 pounds to 30 pounds, to half price, until the end is bundled. Another decorative gift was taken by a pair of veterans.

The egg is the Easter egg, and Dad gave this gift to her daughter in order to be a companion to her daughter. When she went to sleep at night, she had a sleeping song that her mother sang.

It is said that the shape of the bird is not the shape of a chicken. The chicken is also a kind of bird that does not fly in the sky. Or an owl, because it can also be matched with the setting of a night sleep song.

Script

1

A pair of big hands took the musical egg out of the box and placed it on the shelf. The music egg expression becomes sad.

2

The photos of the carousel and the little girl are getting more and more on the wall, the position of the music egg is changing again and again (representing the passage of time), the color of the body is dim and there is a crack (you can also add the lens and the story)

3

The voice-over sound first appeared in the rain, the perspective of the carousel, opened by the black-screen eyes, and gradually brightened, with a tombstone with a little girl's head. The music of the carousel rang again, and it was a little sad. It was so easy to be picked up by a good girl for so long. There were many happy memories that appeared like slides on the edge of the carousel shed.

4

The camera switched to the interior, but the room was darker, and I saw that there was a piece of smashed one. The next side of the shelf also had various puppet dolls with no arms and legs.

5

Recalling the many things that I suffered before I came to this home, the spinning Trojan wanted to commit suicide. Jump off the cabinet and break yourself.

6

Finally, I opened my eyes and saw the father of the woman. I saw that the old man was dressed in a row of cabinets. On the right side, this is not yet fixed. The darkness I saw before was because I was repairing an old-fashioned camera! Wash the film. The wall has a photo of a little daughter and a carousel.
