

Uploading a video assignment in Moodle

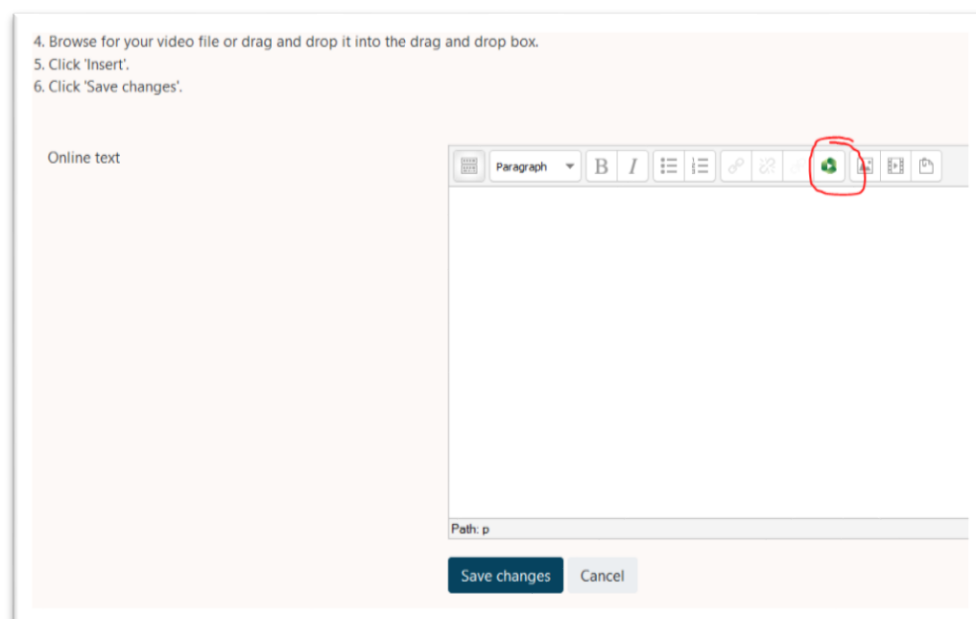

1. Click into the video assignment link in the Assessment section of your module in Moodle. It will have a blue icon like this and the title will indicate which link you need to use, whether for a draft or practice link or for the Final submission that will be the one graded:

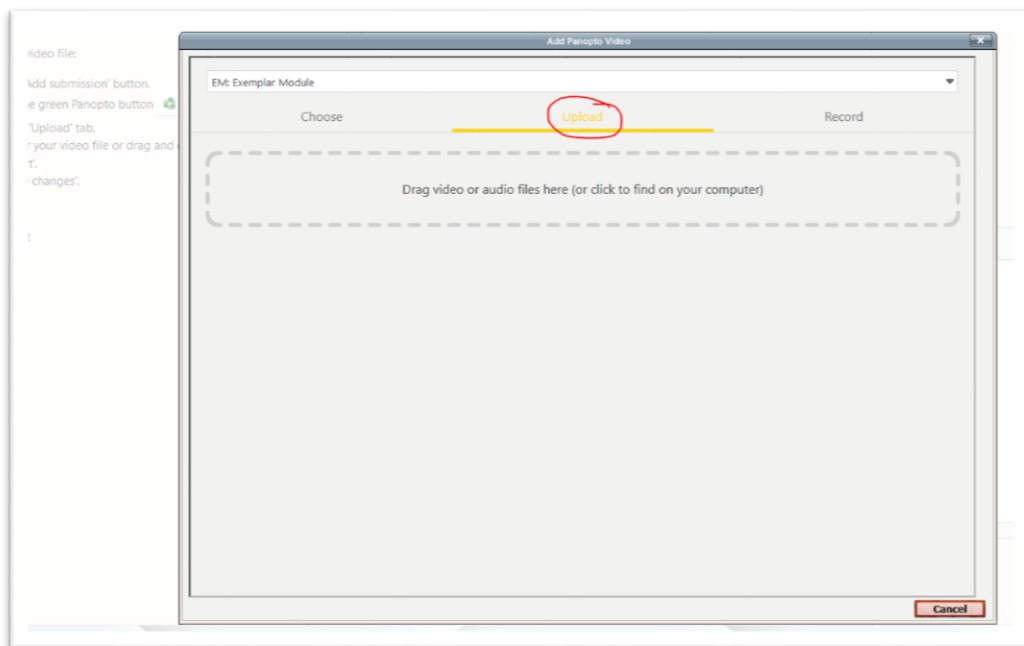

2. In the submission inbox click the 'Add submission' button:

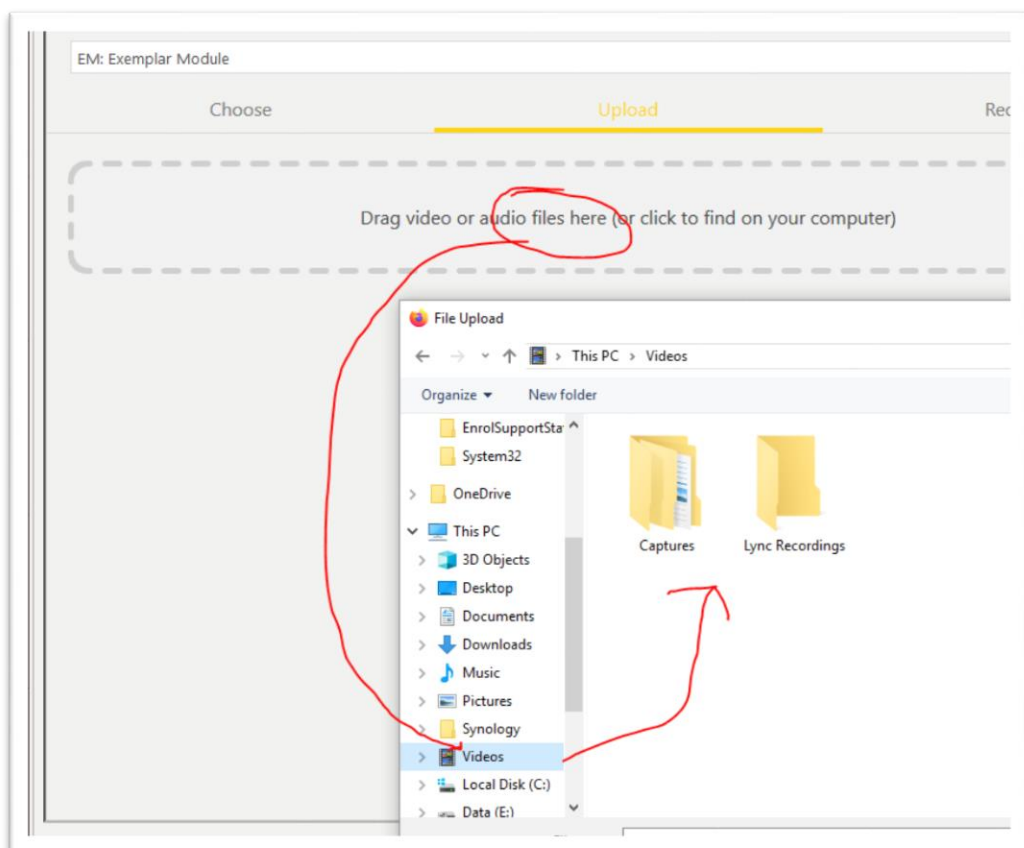

3. Click on the green Panopto button  in the tool bar.

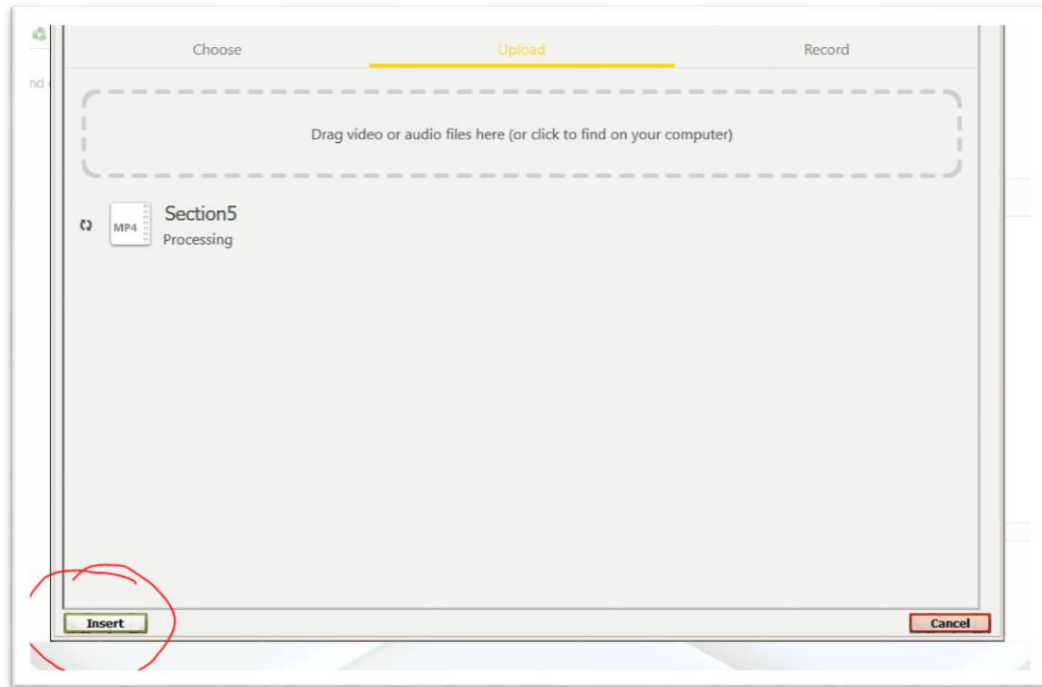

4. Select the 'Upload' tab.

5. Browse for your video file by clicking inside the box or drag and drop the file from the folder where you saved it into the drag and drop box.

6. Once it has uploaded the Insert button will appear in the bottom left of the box and you can click it. Be patient, it may take anywhere from a few seconds to 20 minutes or more depending on the size of your video file, once it has completed uploading the green progress bar will disappear.

7. Click 'Save changes'.
