Literature Review (level of progress, suitable synthesis of background material completed)	/40	/40	18/40	/40
3. Analysis				
Discussion of Findings	/20	/20	5/10	/10
4. Practical Application and Deployment				
Code examples/prototypes/demo	-	-	7/10	/10
5. Skills for Professional Practice				
Project Plan	/10	/10	5/10	/10
Quality of Presentation	/10	/10	7/10	/10
TOTAL	/100	/100	52/100	/100

Comments:

Presentation focussed far more on the Tata project than on the degree project.

Project plan should be for the BIT project, not the overall project

Literature review needs more focus on design and effectiveness of the types of control systems being introduced. Also it should cover the organisational impact on the workers as well as the system. This will help plan the data collection.

Signed: Nik. T. Dittler (Supervisor)
