## Rationale for Inclusion

It is a career Goal to work as a Concept Artist for a company like CD Projekt Red, specialising in medieval aesthetics, like their previous publications such as the Witcher [9]. Furthermore, I am moving permanently to Poland, so the focus was on art or design roles that can help me move up to be a Concept Artist someday. Additionally, all the job listings are in Poland, near to where I will be living.

## Business Card

### Business Card inspiration mood board

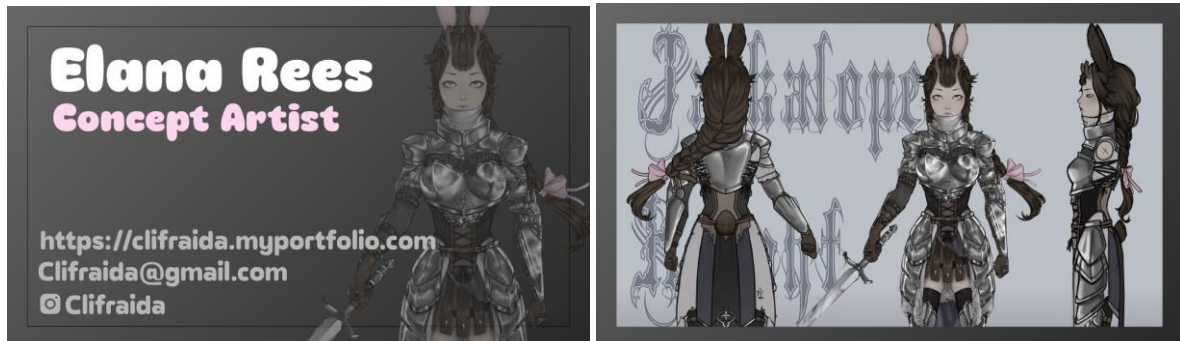

*Mood board of business card inspirations*

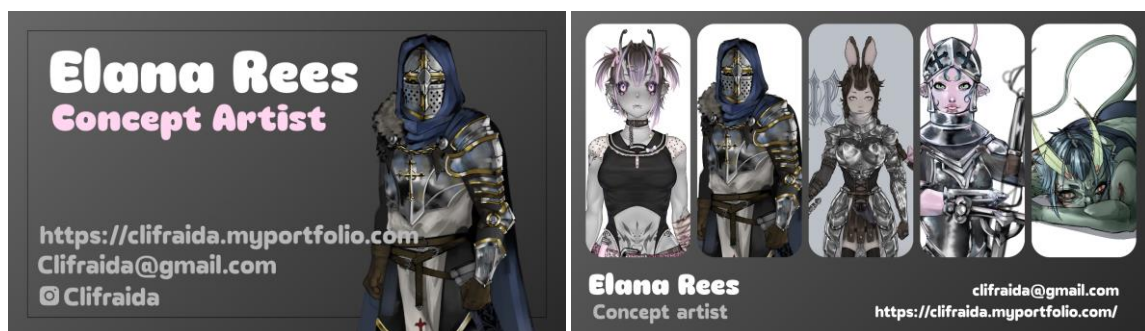

I was inspired by the use of a fully rendered artwork on one side to catch the attention of people, and information on the other side. This would also have collectible value as it serves as a mini print of artwork.

# Business Card Designs

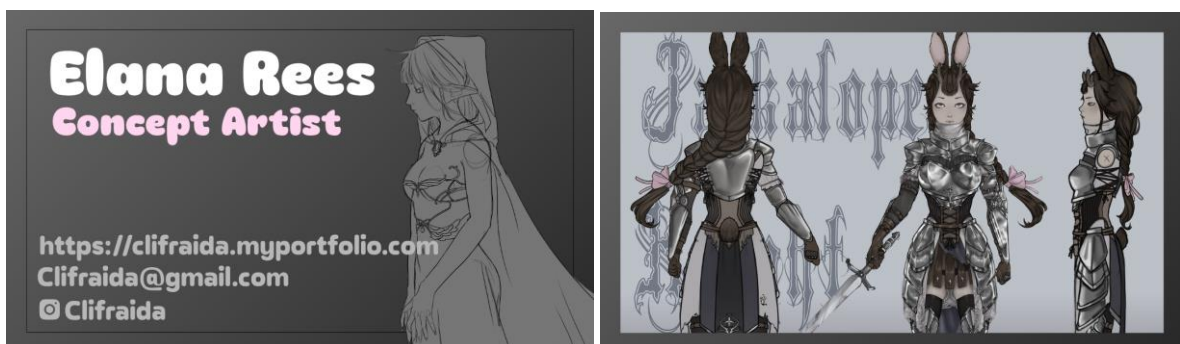

*Business card 1*

*Business card 2*

*Final business card*
