

Create a Hyperlink Using Powerpoint or PPT

1. From O365, choose Powerpoint
2. Open the powerpoint or PPT and select your slide
3. Choose the link you want to copy , this can be a you tube link

4. You will then see display name – you write the name you want and in the URL space paste the link

- 5.
6. Then click on **color**

7. The hyperlink is ready and it shows with the arrow
