

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
1. Engagement with Literature Skills		
2. Knowledge and Understanding Skills		
Considering you have a mobile app and a number of API's, it does appear that you have understood the concept of annotating your code - no issues of note	15	10
3. Cognitive and Intellectual Skills		
You approach to developing the API's/Mobile site is valid and informative. But your discussion on the API does need a little more work i.e., your approach to development/using them - evidence from the console would have been useful.	15	10
4. Practical Application Skills		
As you have commented a simple mobile app that demonstrates the use of 2 API's. The site has been themed appropriately. Although the API's are working, you could have demonstrated more advanced use of this by passing user defined data to them and making the mobile app more "presentable" at present this is a simple dump of the data from the API	70	44
5. Transferable Skills for Life and Professional Practice		

Assignment Mark (Assessment marks are subject to ratification at the Exam Board. These comments and marks are to give feedback on module work and are for guidance only until they are confirmed.)	Late Submission Penalties (tick if appropriate)		64
	Late Submission ?		
	1st/2nd/3rd attempt?	1st
