

Linking your PebblePad webfolio to your Moodle Account in TSD

When you go to the Moodle home page, you will notice a new PebblePad block in the left column.

You will need to login to Moodle using your student number and password to begin the linking process.

Once logged in, click on **Link to PebblePad**.

On the next screen you will be asked to create a link to a webfolio.

Home Page / Moodle to PebblePad Link

You currently have no account links:

Please click the button below to set up your link between PebblePad and Moodle.

A new page will open where you will need to login **again** using your student number and password – you will only have to go through this process once.

Frequently Asked Questions

Are there any size limitations when uploading a file into PebblePad?

Are there any size limitations when uploading work to a gateway?

Can I share my work with someone who does not have a PebblePad account?

The next screen will ask you if you wish to grant Moodle access to your PebblePad account.

Click **Yes** to continue.

pebblePAD

PebblePad OpenAuth

The web site or application Moodle Block wants access to parts of your portfolio.

☒ Personal RSS Feeds

☒ Single Sign-on

☒ Create and alter assets

The access level and name of the application have been pre-filled by you wish.

Do you want to allow this?

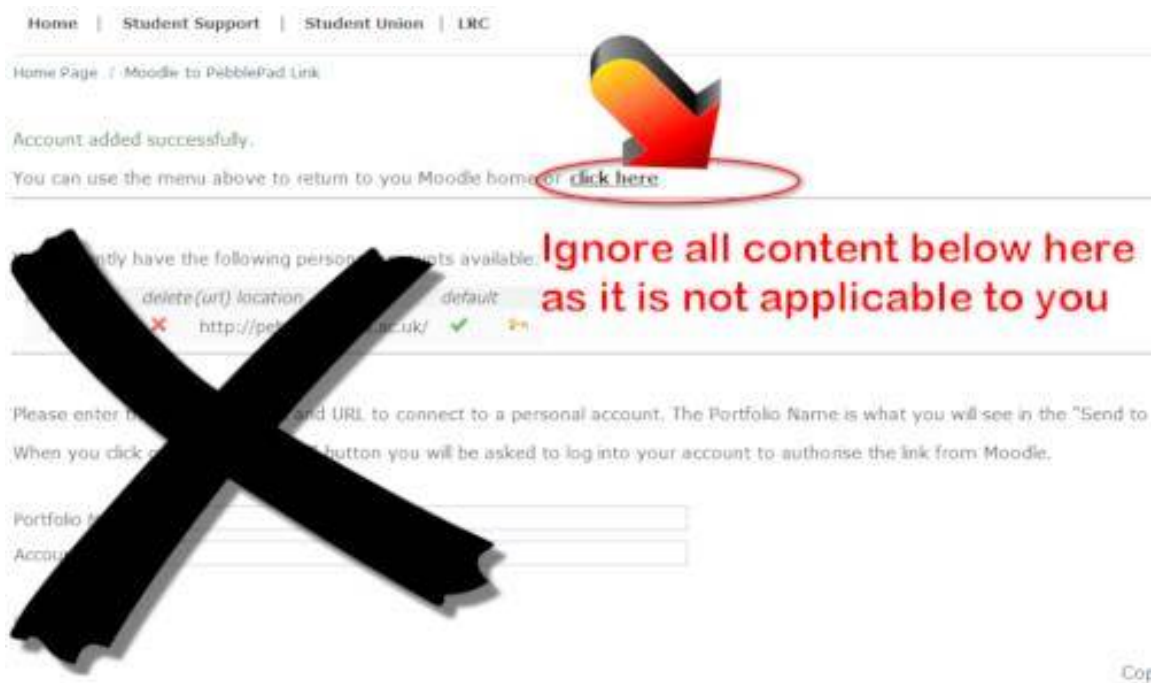

Yes No

Click Yes

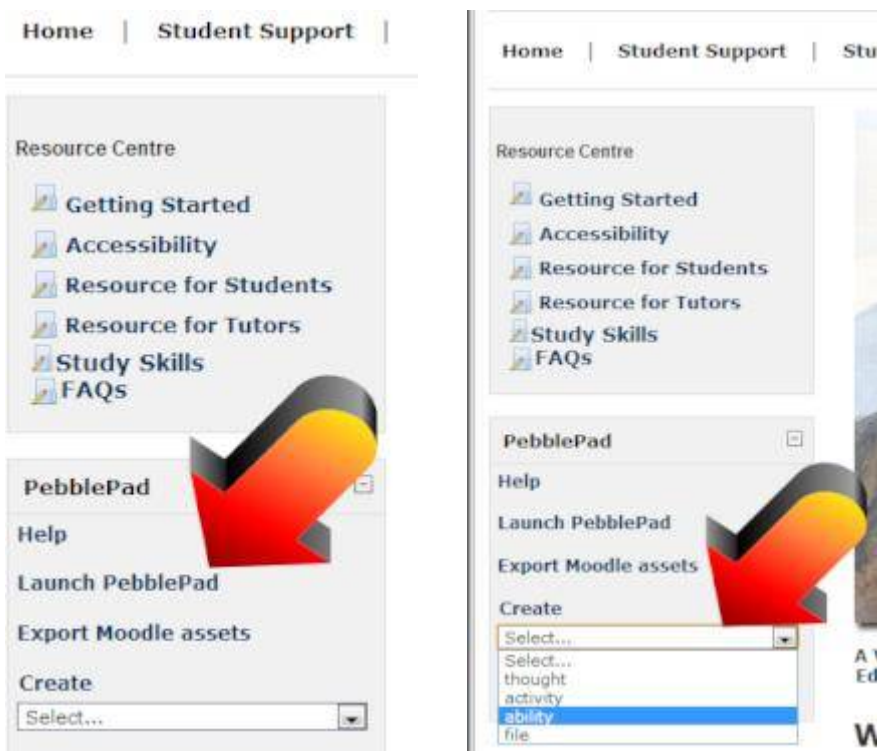

If you grant access now, you can revoke it at any time through the approved applications list

On the next screen you will be told that the account has been added successfully and that you can now return to the Moodle homepage. Click on **click here** at the top of the page to do this.

Please ignore all the other instructions on this screen as they relate solely to PebblePad Personal Accounts and not Institutional ones – which is what you have

You can open PebblePad by clicking on the new **Launch PebblePad** link that has now appeared in the PebblePad block. You can also create assets within Moodle that can be linked to PebblePad and this is explained in the 'Using PebblePad from within Moodle' guide which can be found by clicking **Help** in the PebblePad block.

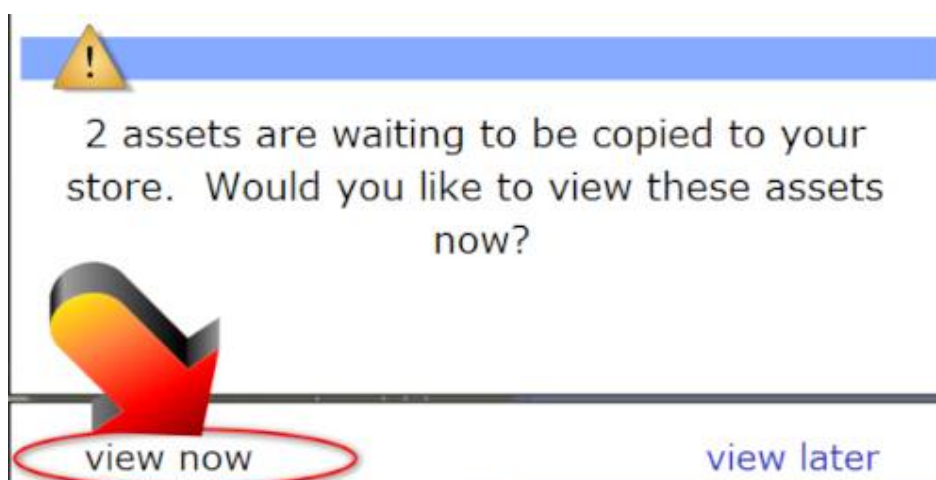

When you open PebblePad for the first time you will be asked to choose a theme – or accept the default Pebble Beach scene. Click on the green tick on the bottom right of the page to save and continue.

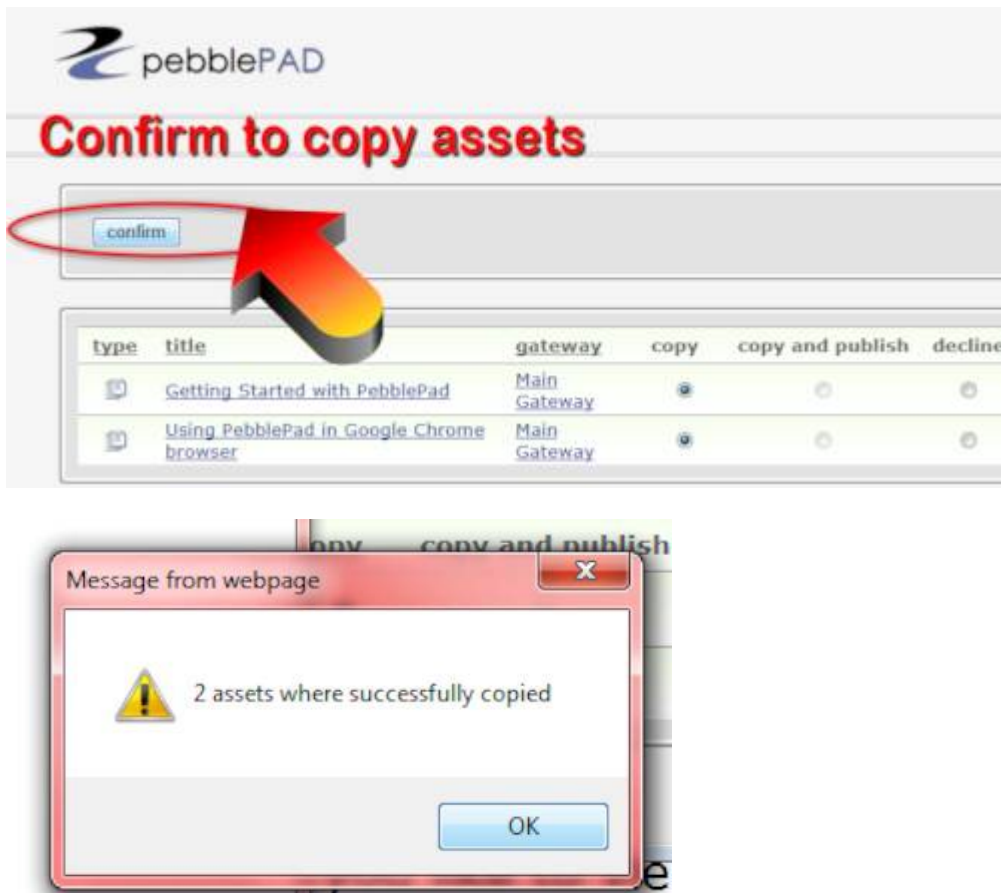

(You may also be asked to fill in your name and student email address in a box which pops up).

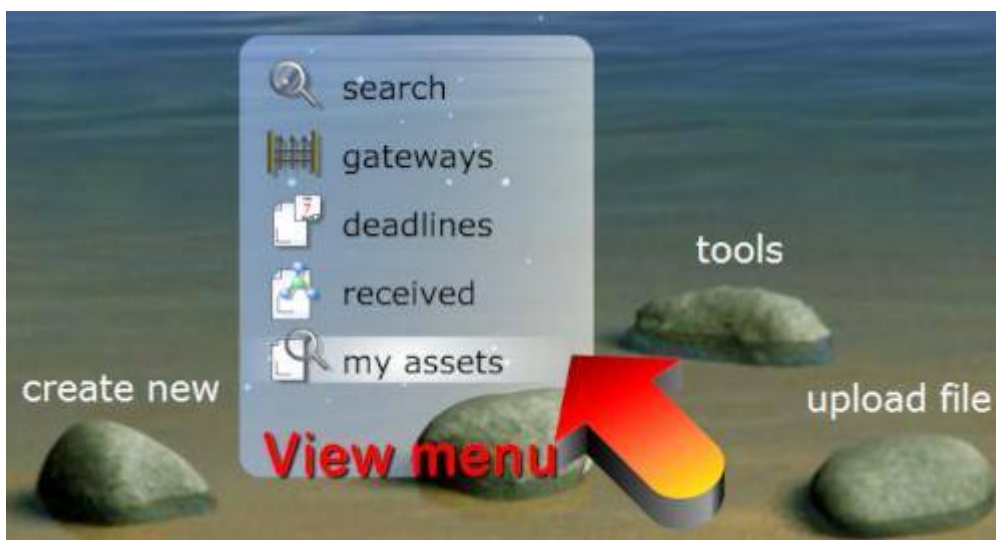

The next box to pop up will ask if you wish to view a number of assets that are waiting to be copied to your store. Assets are simply files and these are just some user guides for you. Click on view now.

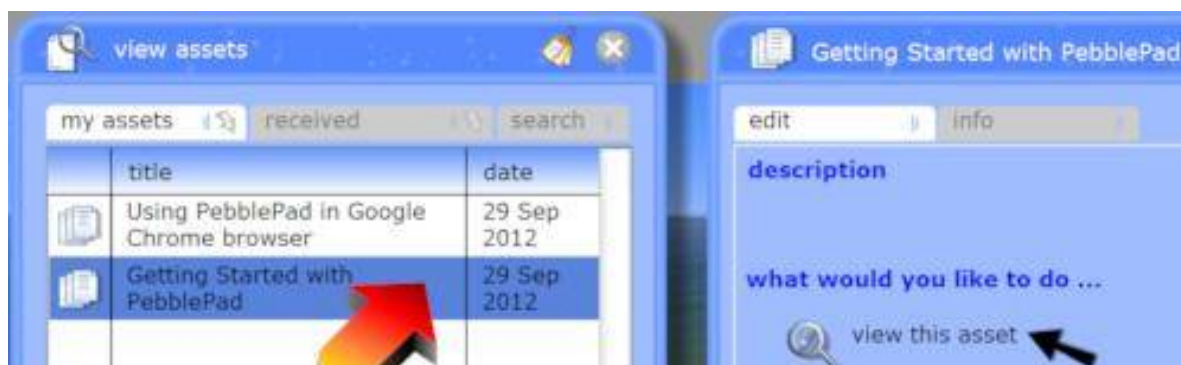

Click on '**confirm**' on the next page that opens and then OK on the dialog box that follows.

To view these assets, click on the View menu (it will be the second pebble on the default theme but will vary on others) and then on my assets.

A new 'pad' will open that contains your assets –all files will be stored here – those that are copied from 'gateways' and those that you upload or create yourself.

Click on the file name and then view this asset on the opposite 'pad'.

Getting Started with PebblePad

Size:
1302KB

File:
Pebblepad_gettingstarted.pdf

Download | [View](#) | View in Zono

You can choose to view or download the file. If you download it you can save it to your own device for later offline reading/printing as you prefer. If you choose to view the file, it will open in the browser for you.

File will open in browser

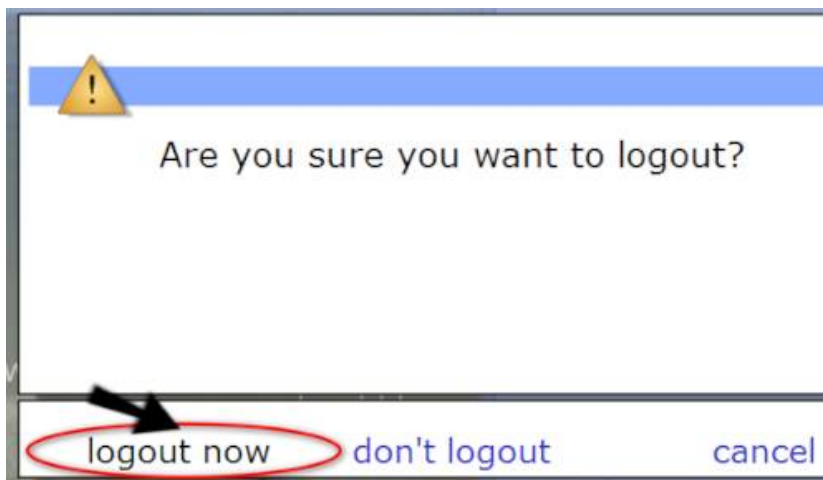

Getting Started

PebblePad is a personal learning space. Even if you are required to use it as part of a course or your profession it is important to remember that no-one can see anything you record, create or upload unless you choose to share with them – either individually or through a gateway.

You may not be naturally inclined to use a tool like PebblePad but feedback from learners, tutors and professionals provides strong evidence that it can help you make sense of your learning and development over time – whether that takes place in a formal context or through work, volunteering, or hobbies and pastimes. You may be required to use PebblePad as part of your studies, teaching, or profession. Don't let these requirements limit all of the ways in which you choose to use PebblePad to support your personal and professional development.

When you have finished with PebblePad, you can click on the logout button at top right of the screen to logout.

Further details and a range of **PebblePad User Guides** can be found by clicking on the **Help link on the PebblePad block** and the? on the bottom of each screen in PebblePad links to a very comprehensive online Help system with screenshots, explanations and videos.
