

QUIZIZZSkeletal System
16 Questions

NAME : _____

CLASS : _____

DATE : _____

1.

What bone is highlighted?

☐

Scapula

☐

Cranium

☐

Clavicle

☐

Mandible

2.

What bone is highlighted?

☐

Scapula

☐

Mandible

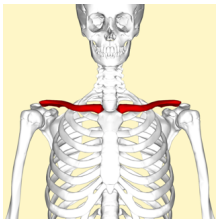

☐

Skull (Cranium)

☐

Clavicle

3.

What bone is highlighted?

☐

Mandible

☐

Skull (Mandible)

☐

Scapula

☐

Clavicle

4.

What bone is highlighted?

☐

Humerus

☐

Fibula

☐

Femur

☐

Tibia

5.

What bone is highlighted?

☐

Pelvis

☐

Ribs

☐

Vertebrae

☐

Radius

6.

What bone is highlighted?

☐

Radius

☐

Ulna

☐

Carpals

☐

Humerus

7.

What bone is highlighted?

☐

Ribs

☐

Femur

☐

Vertebrae

☐

Clavicle

8.

What bone is highlighted?

☐

Pelvis

☐

Clavicle

☐

Femur

☐

Patella

9.

what type of bone is the femur

☐

Flat bone

☐

Short bone

☐

Long bone

☐

Irregular bone

10.

What type of bone is the scapula

☐

long bone

☐

sesamoid bone

☐

short bone

☐

flat bone

11.

Which one of the following is an irregular bone

☐

patella

☐

tibia

☐

vertebrae

☐

humerus

12. Which of the following **best** describes the job of the skeletal system?☐

Gives shape and support to the body.

☐

Sends messages from the stomach to the brain.

☐

Brings in and breaks down all nutrients for the body

13. Which of these functions is **not** a function of the skeletal system?☐To help **support** the body and give it **structure**☐To help **protect** the body's soft organs☐To **store** calcium and other important minerals☐To help the body **breathe**☐To **produce** blood cells

14.

What are functions of the skeletal system?

☐

Protection

☐

All of the above

☐

Shape

☐

Posture

☐

Movement

15. How many bones make up the average human skeleton?

☐

306

☐

206

☐

256

☐

356

16.

Children have more bones than adults

☐

True

☐

False
